

Neutral rinse aid

Description

Suma Rinse A5 is a low foam general purpose rinse additive for machine ware washing.

Key properties

Suma Rinse A5 is a standard neutral rinse additive. It has been specially formulated for use in a wide range of ware washing machines. The product contains a special blend of non-ionic surfactants for rapid and spot and streak free drying on all cleaned surfaces in soft and medium hard water conditions.

Benefits

- Ensures quick drying
- Gives streak and spot-free results
- Highly concentrated formulation gives economy in use
- Low foaming action for more efficient operation

Use instructions

Suma Rinse A5 is normally injected automatically into the final rinse water of ware wash machines at a minimum recommended dosing of 0,2ml/l* at temperatures of 70-80°C, using Diversey automatic dispensing equipment, or integral dosing pumps if fitted. It may also be applied manually into the rinse aid reservoir of smaller ware washing machines.

Actual dosage levels are determined according to local site conditions.

**This dosage is according to optimal conditions, recommendations may vary, please consult with your Diversey representative for directions.*

A5

Technical data

Appearance: clear blue liquid

pH value (neat): 7,0
