#1

Dirty and overcrowded washrooms are the no.1 issue for guests at high-traffic venues

71%

of guests at high-traffic venues have had a bad washroom experience

1 in 3

guests who avoid going to the washrooms limit how much they eat and drink to do so

The number one issue bothering your guests? Washrooms.

Our latest research* shows that dirty and overcrowded washrooms are the biggest problem at high-traffic venues – more than violence, long queues to get in and traffic to and from the venue.

When asking over 3000 people across six countries about their experience at high-traffic venues, the results were clear: Guests simply don't want to be delayed in a washroom, let alone a dirty one, or miss out on the event.

Yet over 70% of guests have had a bad washroom experience, impacting business more than you may think. Two in five of those who have had a bad experience complained about it to friends. A quarter of guests even avoid the washrooms altogether, of which a third limit what they eat and drink to do so.

So whether you run a stadium, concert hall or airport, speeding up and cleaning up the washroom experience is key to improving business.

That's where Tork PeakServe™ can help.

Let's get you crowd-ready with Tork PeakServe™ Continuous® Hand Towel

A new standard of high-traffic dispensing for a superior guest experience

Fewer washroom delays get guests in and out faster

- **Avoid run outs with 250% more hand towels*** and lower consumption thanks to one-at-a-time dispensing
- **Faster dispensing serves guests in 3 seconds** – quicker than jet air drying time
- **Taking a towel is always smooth and easy** with our patented continuous towel system

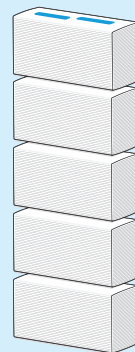

More flexibility means more time to clean

- **Top up when it suits you** with up to 600 more guests served between refills*
- **Double the towels you can carry** as they're compressed by 50%*
- **Cut refill time in half** with up to 2100 towels per dispenser*

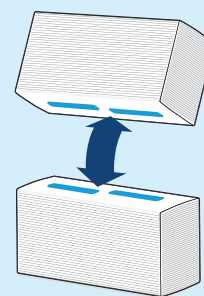

Our latest innovation explained

Our new hand towels are compressed to fit twice as many in less space. The system is continuous: bundles latch onto each other when loaded and towels are connected so they dispense with no interruption.

The result is a new standard of smooth, continuous towel flow and a dispenser that stays slim yet has 35% more capacity than any other product on the market.*

Bundles are compressed by 50% giving up to 2100 towels per dispenser*

Continuous bundles latch together as bundles are loaded

Bundles dispense without interruption one towel at a time

250%*

more hand towels
to avoid run outs

600*

more guests
served between
refills

Arm your team with a complete crowd-ready washroom

Explore the full high-traffic offer from Tork®

Tork SmartOne® Toilet Paper

Spend less time on refills and more time on core tasks keeping guests happy. Tork SmartOne® allows 98 more visits than a traditional jumbo roll, and reduces tissue consumption by up to 40% with single-sheet dispensing.*

Tork Spray Soap

Take on the crowds with up to 3000 doses per refill of spray soap. Our easy-to-use dispensers make hand washing quick and smooth.**

Connectable with Tork EasyCube™ for smarter cleaning

Take on the crowds with a new level of data-driven efficiency – connecting your dispensers with our digital cleaning management solution. Tork EasyCube™ empowers your team with real-time data on visitor and refill levels, letting them see on a tablet exactly what's needed, when and where.

The result is a revolutionary boost to efficiency, staff engagement and customer satisfaction.

1
Sensors measure visits and refill levels in real-time

2
Real-time information lets cleaners act on what's needed, when and where

3
Managers are in control and can plan smarter with less time and effort

* Statistics from internal research on 7,729 users in Europe. Traditional maxi jumbo dispenser vs. Tork SmartOne® Twin Mini dispenser. Reduction accounted in square metre used per visit. Maxi jumbo 13,6 dm², Tork SmartOne® Twin Mini: 8,2 dm². **Based on dose size of 0,333ml per user.
