Cleaning High Gloss Surfaces Using Ultramicrofibre and Water

- UMF can be used on glass, mirrors, ceramics, plastics, laminates, stainless steel and other polished metals. In fact, virtually any gloss surface
- Simply spray the pad or cloth with just tap water and mop/wipe the surface using systematic overlapping passes to a streak free finish.
- The telescopic handle extends to 80cm allowing easy reach up to 2.5m, without the need for ladders
- Additional telescopic handles to be selected clean up to 4-5m
- After use, the trigger spray should be emptied and left to air dry before storing, mops and cloths should be laundered under NHS guidelines.
