

NEW & IMPROVED

CHEEKY PANDA BIODEGRADABLE ANTI-BACTERIAL MULTI-SURFACE CLEANING WIPES

The perfect way to keep your surfaces clean and get them to gleam!

Made to EN 14476 & EN 1276 standards.

PACK SKU CODE - ANTIBW-GBR
CASE SKU CODE - ANTIBWX6-GBR

The Cheeky Panda's new, improved wipes are effective against viruses such as Poliovirus, Norovirus, and Influenza A; and bacteria such as *P. aeruginosa*, *E. coli*, and *E. hirae*. Free from fragrance, fertilisers, pesticides and chlorine bleach, simply made with purified water, and plant-derived cleaning agents.

What's more, they are dermatologically tested, proudly vegan and never tested on animals. These wipes are powerful enough to tackle dirt and germs yet gentle enough on skin, even the sensitive kind!

"The Cheeky Panda Biodegradable Anti-Bacterial Multi-Surface Cleaning Wipes are made in the UK to anti-bacterial and anti-viral standards EN 14476 & EN 1276, which certify they will 'kill' most viruses and bacteria to a 99.99% level, preventing outbreaks on site.

The wipes are ideal for using in hot desking environments, education, transport, healthcare and services.

Product features

- FSC Certified
- Vegan Certified
- Our wipes are made from biodegradable bamboo fibres (instead of non-biodegradable, ocean-polluting polyester or hard to biodegrade viscose);
- Dermatologically tested
- Cruelty free certified and never (ever) tested on animals.
- Made in the UK, to help lower the carbon footprint of the product.
- Packaging made with 30% waste plastic and can be recycled.
- Manufactured to meet anti-bacterial and anti-viral standards EN 1276 and EN 14476.
- Effective against viruses such as Poliovirus, Norovirus, and Influenza A; and bacteria such as *P. aeruginosa*, *E. coli*, and *E. hirae*.
