

CL3029

PRODUCT USAGE QUICK GUIDE

Washroom Cleaner Concentrate

Daily washroom surface cleaning and sanitising

Cleanline Eco Washroom Cleaner Concentrate is a powerful multi-surface cleaner and disinfectant, safe for use most bathroom surfaces, fixtures and fittings.

AVAILABLE UNIT SIZE(S) & CODES:
CL3029 - 5L Litre Concentrate
CL9009 - Empty 19 labelled trigger spray bottle

SAFE HANDLING:
Always wear Personal Protective Equipment (PPE) when handling, dispensing and using chemicals.

Refer to the Safety Data Sheet (SDS) for detailed information and immediate first aid measures including medical emergency helpline number.

Use appropriate PPE as indicated in the safety data sheet.

Prepare area: Place warning/safety sign, ventilate, remove large pieces of litter.

Proven effective against bacteria and conforms to EN 1276 (used at 2% diluted solution).

Spray cleaning: Fill 19 bottle with 600ml of water and add 1 dose.

Bucket cleaning: Fill bucket with 5 litres of fresh water and add 5 doses.

Remove all visible dirt and gross soiling from surfaces. Hard floors should be swept and free from any loose debris.

Clean hand basins, surfaces and mirrors using a damp cloth. Change cloths depending on area and soiling.

Floors: Apply the solution with a mop, walking backwards mopping in an "S" shape pattern. Rinse mop regularly and remove the soiled solution.

Spray the prepared solution onto all fixtures and surfaces including taps and basins. **To disinfect allow minimum 30 seconds contact time (EN 1276).**

EN 1276 (bacteria) - leave for 30 Seconds

Rinse surfaces with clean water. Buff with a clean cloth/paper towel for extra shine or allow to air dry. When dry remove warning sign.
