BUNZL

cleaning & hygiene supplies

Bunzl Cleaning & Hygiene Supplies are pleased to introduce a full range of cleaning products developed to cater for the needs of every "Away From Home" market sector.

RANGE

GREENLINE PLUS

First introduced in 2007 Greenline Plus was one of the very first professional ranges of cleaning products to be accredited with the prestigious EUROPEAN ECO-LABEL, a European wide symbol for products that are able to satisfy stringent criteria with respect to their impact on the environment and the population, but yet still offering outstanding levels of performance.

CLEANLINE

Established as a dependable and cost effective cleaning brand over 20 years ago, Cleanline has continued to develop, and today still offers outstanding cleaning performance at sensible value for money pricing. The range offers a complete solution for cleaning offices, washrooms, kitchens and bedrooms.

CLEANLINE WET WIPES

A compact range of wet wipes for - general surface wiping, graffiti removal, toilet seat disinfection and most importantly the disinfection of hard surfaces in critical areas like hospitals and food preparation. The Sanisafe Disinfectant is fully approved and effective against Swine Flu, C-Difficile, HIV, E-Coli, MRSA, Salmonella and many other harmful bacteria and viruses.

CLEANLINE PROFESSIONAL CONCENTRATES AND SUPER CONCENTRATES

A new addition to the Cleanline family, in keeping with our philosophy of continual development we have introduced a brand new range of simple easy to use concentrate and super concentrate products, covering most aspects of every day cleaning. These six easy to use products, packed in a simple "optic" dosing bottle, combine outstanding performance with an exceptional cost in use when diluted.

Alongside these we have also introduced a small top quality range of dishwashing and laundry products for machine dishwashing and auto dosed laundry applications.

To support these products we can also offer a full package of usage instructions and equipment including spray bottles and dosing equipment together with a fitting and maintenance service if required.

FLOORLINE

A trusted, proven brand in floorcare products, offering superb performance and excellent value for money pricing. Floorline is a complete floorcare range for both hard floors and carpeted areas.

ENVIRONMENT

We have carefully chosen our manufacturing partners for these cleaning products, and work very closely with them to ensure that we meet and exceed all of the ever-increasing legislative requirements for chemical products.

They are all ISO 9001 and ISO 14001 accredited.

In addition to compliance with the EU REACH and CLP regulations our manufacturers and products are also fully compliant with the EU Detergents regulation and the EU Biocidal products directive. Our manufacturing partners also voluntarily comply with the recommendations in the BACS / UKCPI "Guidance for Responsible Public Procurement of Cleaning Products".

We actively encourage our manufacturing partners to minimise water and energy consumption in the manufacturing process and work with them to minimise packaging and transportation.

TRAINING

The correct usage of products and accurate dilution for the job is vital for minimising wastage in the cleaning industry.

We have our own BICSc accredited training facilities and dedicated BICSc trainers and can offer training packages and relevant certification for your staff. Email: training@bunzlchs.co.uk

SERVICE

At Bunzl Cleaning & Hygiene Supplies we fully understand that the best products need to be supported by the highest levels of service, our customer care teams, together with our drivers, warehouse staff, managers and sales force are all totally committed to delivering what you want, when you need it to where you need it.

Environmental Cleaning

The majority of our Greenline Plus range feature the prestigious European Ecoflower Accreditation. The European Commission, in June 2011, re-issued the criteria for the granting of the Ecoflower label. During the allowed transition period Bunzl Cleaning & Hygiene will adapt and develop the range to ensure compliance with the new criteria.

1 Greenline Plus Mild Detergent

Mild eco-friendly dishwashing liquid for use by hand. Also suitable for floor and general cleaning.

Size: 1 Litre - Case of 6
