

2022 | COMPLETE
CLEANING
SOLUTIONS

We utilise innovation and sustainability to help our customers protect people and the environment by creating the world's cleanest and safest workplaces and communities.

At BCHS, we pride ourselves on our agility and this allows us the flexibility to adapt to the changing cultural and industry demands of our sector.

With 18 branches throughout the UK there is always a Bunzl Cleaning and Hygiene branch near you. Having our own fleet of distribution vehicles allows us to deliver efficiently to point of use, and not to the kerb-side like a number of courier companies will do.

We have a large team of field-based industry experts who together, will enable us to provide fast responsive support. BCHS pride ourselves on our exceptional level of locally based customer care with the seamless efficiency of a national company.

Why choose Cleanline?

Cleanline is an exclusive brand of cleaning and hygiene products from Bunzl Catering Supplies, manufactured in the UK and designed specifically for the catering and hospitality industry.

An effective solution for all routine and periodic cleaning tasks in commercial kitchen, washroom and housekeeping environments, Cleanline includes products that are proven effective against a wide range of micro-organisms, including bacteria and viruses, for optimum hygiene in the wake of COVID-19.

Why choose Cleanline?

- A trusted, comprehensive range that tackles routine and periodic cleaning tasks, developed for use in demanding professional environments.
- Available in ready-to-use and concentrated formats that deliver economy, improved efficiency in use and reduces packaging waste.
- A wide range of products that are independently tested and proven to be effective against a range of micro-organisms, including bacteria and viruses, for optimum hygiene in the wake of COVID-19.
- Core products manufactured in the UK, operating to ISO 9001 and ISO 14001.
- Fully recyclable packaging and most products use at least 40% recycled plastic.
- 24-hour emergency response service operated by the National Chemical Emergency Centre (NCEC).
- Clear colour-coded labelling across dosing dispensers, cleaning products and trigger spray bottles to improve product identification in busy professional environments.
- Easily identifiable product naming conventions and comprehensive on-pack information on how-to-use, dilution and waste packaging disposal, all compliant to the latest UK CLP regulations.
- Field support provided by a team of specialists providing customer on-site consultation and after-sales care, with a train the trainer approach.
- Digital support platform providing access to COSHH awareness training and product resources, including safety data sheets and technical information.
- Full suite of product assets, including, product how-to-use guides, risk assessments and safety wall charts.

Cleanline delivers a suite of products in concentrated and ready-to-use formats

READY-TO-USE PRODUCTS

Ready-to-use cleaning products in the Cleanline range are designed to be used out of the box and require no preparation or additional dosing equipment. They are a practical, effective and convenient option supplied in easy to apply trigger spray bottles or squeeze bottles. Many Cleanline trigger spray bottles are made from recycled plastic, which is shown on the bottle label along with responsible waste packaging disposal information.

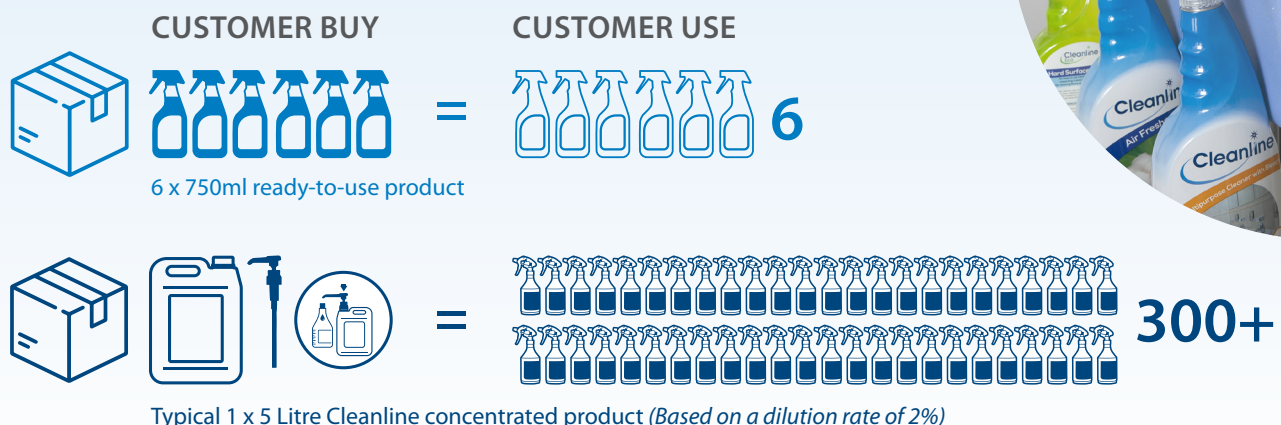

Ready-to-use products are often used for infrequent tasks as a problem solver, or in smaller operations where space is limited or there is no access to a water supply. Mixed at point of manufacture, ready-to-use products contain the right strength formulation for the task they are designed for, ensuring the product performance and efficacy is consistent and reducing the risk of waste.

CONCENTRATED PRODUCTS

Concentrated cleaning products in the Cleanline range can be diluted through wall-mounted dosing and dispensing equipment to improve cost-in-use, minimise spillages and eliminate the risk of overdosing. A Cleanline dosing system delivers an accurate dilution every time, reducing risk, eliminating waste and ensuring optimum cleaning performance.

Concentrated products contain more chemical and less water. This means that concentrated products require less storage, take up less space when in transit and are ordered less frequently when compared to ready-to-use cleaning products – potentially reducing CO² emissions and improving air quality by reducing transportation.

By choosing concentrated cleaning products that are diluted at point of use, operators can reduce storage on site, minimize packaging waste and reduce the impact of transportation - potentially reducing CO² emissions and improving air quality.

Ultimate control with Cleanline dosing and dilution control systems

Diluting cleaning products at the point of use and sourcing water locally minimises transport costs and carbon emissions. Using precise dosing measurements minimises chemical wastage and provides cost-in-use benefits. Cleanline dosing and dilution control systems provide ultimate accuracy, reduce risk, deliver measurable cost-in-use and increase productivity.

Cleanline ECOMULTI system delivers accurate and consistent dilutions

Cleanline ECOMULTI is a highly efficient wall-mounted system for medium to larger sites that have access to mains water. ECOMULTI allows for multiple products to be dispensed from one platform for ultimate control and allows easy and safe filling of labelled trigger spray bottles, buckets and scrubber driers.

The right dilution rate at optimal filling speed is always delivered, this prevents unnecessary rework due to over or under dosing. Colour-coded concentrated products and reusable spray bottles make the user training simple and significantly improves efficiency.

- Delivers pre-determined chemical ratio into a bucket or labelled trigger spray bottles.
- Offers a reliable way of diluting multiple cleaning products from one dispenser.
- Compact design fits even the smallest environment.
- Colour-coded dispenser labelling aligned to Cleanline products for easy identification.
- Reduces risk by minimising user exposure to chemical concentrates.
- Accurate dosing ensures product compliance and optimal performance.

Cleanline ECOSHOT system offers a reliable and controlled single dose

Cleanline ECOSHOT is a chemical dosing system which can dispense a precise chemical dose of concentrate into a labelled trigger spray bottle, a bucket or a sink. The dosing system is a wall mounted manual pump requiring no mains water connection and is suitable for any environment with inconsistent water pressure.

- Simple push operation that delivers a single dose of product.
- Dose into a bucket or labelled trigger spray bottles.
- Push-button with initiation feature prevents miss-dosing. Delay mechanism avoids overdosing.
- Clearly labelled with colour coding for use with specific Cleanline concentrated products.
- Ideal for daily use concentrated products such as detergent, sanitisers and disinfectants.
- Low maintenance and durable design ideal for use in busy environments to help reduce cost-in-use and wastage.

COSHH awareness training is essential for any business using hazardous substances and is available from the Cleanline digital training platform

THE IMPORTANCE OF COSHH

Control of Substances Hazardous to Health (COSHH) is the law that requires employers to control substances that are hazardous to health. It is there to enforce and raise safety standards in the workplace and reduce the frequency and severity of accidents involving chemicals and other hazardous substances in the workplace.

The Cleanline digital training and product resources platform

A digital training platform for customers using Cleanline products, this dedicated digital platform delivers up-to-date COSHH awareness training to individual users in less than fifteen minutes via a series of short videos and multiple-choice questions. Successful completion of the training is automatically flagged to a customer administrator, who can access and download user reports via the Admin tab.

- COSHH awareness training accessible 24/7.
- Provides access to the latest product safety data sheets.
- Records user activity and logs when training is successfully complete.
- Users can download a training completion certificate.
- Provides additional product resources including technical information and product how-to-use guides.

An essential range of Cleanline products tackle key cleaning tasks in specific commercial environments

Cleanline delivers essential, effective cleaning solutions for key tasks in specific commercial environments, ensuring the very highest standards of cleaning and hygiene are achieved in professional kitchen, washroom and housekeeping areas.

Rethinking effective sustainable cleaning

The Cleanline Eco range promotes responsible consumption and production, aims to protect life on land and water, and is effective for professional use.

Cleanline Eco is a specially developed range of professional cleaning products designed to effectively cleaning tasks in a catering and hospitality operation with a reduced impact on the environment. All products in the Cleanline Eco have specific sustainability attributes and have been developed to our Eco Star standard.

The Eco Star standard for sustainability

Our Cleanline Eco range promotes responsible consumption and production, aims to protect life on land and water, and is effective for professional use. Developed to our Eco Star standard for sustainability, each product in the range must meet some or all of the sustainability criteria set by the Eco Star standard's five sustainability pillars.

Icons reference

Cleanline delivers effective cleaning solutions for key tasks in specific areas of use, including professional kitchen, washroom and housekeeping environments. For each product in the Cleanline range, quick reference icons provide information on preparation, primary area of use, key product highlights and packaging.

Preparation

-  Approx. number of trigger spray solutions
-  Approx. number of 20L sink solutions
-  Approx. number of 5L bucket solutions
-  Approx. number of prepared 1L solutions
-  Quantity of soluble sachets per pack
-  Machine auto-dosed
-  Sink dosage range
-  Self-dosing bottle

Primary area of use

-  Kitchens and food preparation areas
-  General housekeeping areas
-  Desks and general workspace areas
-  Washroom and toilet areas
-  General hard floor areas

Application

-  Kitchen drains
-  For use on upholstery fabric
-  For use on carpets
-  For use on stainless steel surfaces
-  For manual ware washing
-  For grout cleaning and use on tiled surfaces
-  For use in urinals
-  For use on toilets
-  For application via floor cleaning machine
-  Fixtures and fittings
-  For use on sealed hard floors
-  Bathroom fixtures including shower heads
-  Easy spray and wipe application
-  Cloth/sponge and bucket application

Product highlights

-  Odour neutralising technology
-  No added perfume
-  Application-specific beneficial bacteria technology
-  Highly perfumed formula
-  Neutral pH formula
-  Fresh citrus fragranced
-  Disinfecting properties
-  High performance virucidal disinfectant
-  Powerful descaling properties
-  Smear free glass and mirror cleaning
-  Clears drains and pipes

Packaging

-  5L bottle contains recycled plastic
-  750ml bottle contains recycled plastic

Machine Dishwashing

5L Code: 036006

Other Sizes

20L Code: 036007

Cleanline Machine Dishwash

CL1013

Cleanline Machine Dishwash is a commercial dishwashing detergent formulated to provide excellent soil removal.

- Scale control agents help prevent limescale build-up in medium to hard water conditions.
- Provides excellent soil removal of grease, fats and dried-on food.
- Low foaming formulation.
- Dispense using an external automatic dosing system or integral dosing pump.

5L Code: 036452

Cleanline Aluminium Safe Machine Dishwash

CL1016

Cleanline Aluminium Safe Machine Dishwash is a high performance commercial dishwashing detergent formulated to provide effective soil removal in all water types and is safe on aluminium utensils.

- Offers powerful cleaning and removal of residues and build-up on aluminium items.
- Contains specialist inhibitors to reduce corrosion of aluminium pans, saucepans and trays.
- Suitable for use in soft and hard water conditions.
- Dispense using an external automatic dosing system or integral dosing pump.

5L Code: 036998

Other Sizes

20L Code: 036999

Cleanline Hard Water Machine Dishwash

CL1014

Cleanline Hard Water Machine Dishwash is a high-performance and commercial dishwashing detergent formulated to provide excellent soil removal in hard water conditions.

- Powerful scale control agents help prevent limescale build-up in hard water conditions.
- Provides excellent soil removal of grease, fats and dried-on food.
- Low foaming yet highly active formulation.
- Dispense using an external automatic dosing system or integral dosing pump.

5L Code: 036240

Cleanline Chlorinated Machine Dishwash

CL1075

Cleanline Chlorinated Machine Dishwash is a low foam commercial dishwasher detergent, highly effective in removing tannin and coffee stains from cups, stainless steel and glassware.

- Concentrated highly alkaline chlorinated formula contains in-built scale inhibitor that eliminates scale formation while ensuring excellent results.
- Provide excellent soil removal of stains, fats and dried-on food from glasses, cutlery and crockery.
- Suitable for use in soft and hard water conditions.
- Not suitable for use on aluminium, zinc or other alloys.
- Dispense using an external automatic dosing system or integral dosing pump.

5L Code: 036005

Other Sizes

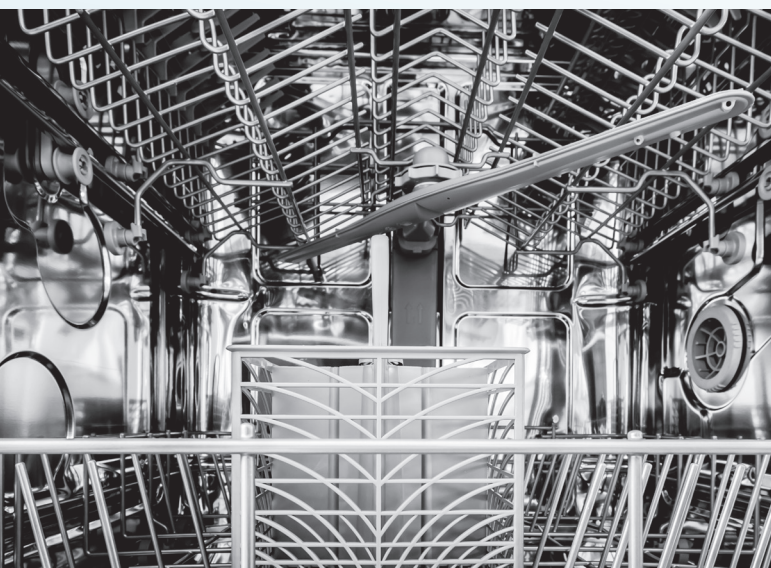

20L Code: 036451

Cleanline Auto Rinse Aid

CL1018

Cleanline Auto Rinse Aid is an effective final rinse additive that assists the drying process in dishwash and glasswash machines whilst preventing spots and hazing.

- Final rinse additive for rapid, spot and streak free drying.
- Produces sparkling, smear free crockery, cutlery and glassware.
- Built-in low foam formulation ensures efficient operation in dishwash and glasswash machines.
- Suitable for use in soft and hard water conditions.
- Dispense using an external automatic dosing system or integral dosing pump.

Machine Glasswashing and Dishwasher Capsules

5L Code: 036003

Cleanline Machine Glasswash Detergent **CL1019**

Cleanline Machine Glasswash Detergent is a powerful detergent for use in cabinet glasswashing machines to remove the most stubborn residues, stains and soiling to produce sparkling clean glassware.

- Effective detergent for cleaning glassware and reusable polycarbonates in cabinet machines.
- Highly active and low foaming formula, effective in hard and soft water conditions.
- Removes stubborn residues and soiling, including lipstick, producing sparkling glassware every time.
- Safe and compatible for use with all glasswashers and glass washing equipment with auto-dosing pumps.

5L Code: 043975

Cleanline Machine Glasswash Renovator **CL1020**

Cleanline Machine Glasswash Renovator is a low foam, chlorinated detergent specially designed to remove beer residue and protein deposits from drinking glasses.

- Powerful formula removes proteins and soils that build-up on the glass over a period of time.
- Formulated to restore and maintain glassware helping to keep them in excellent condition.
- Restores old glassware and rejuvenates etched bases.
- Effective in soft and hard water conditions.
- Safe and compatible for use with all glasswashers and glass washing equipment with auto-dosing pumps.

Reliable and efficient chemical dosing systems help commercial dishwashers maintain optimal performance.

Cleanline Dishwasher Dosing Equipment

Cleanline Dishwasher Dosing Equipment can be used for a wide variety of commercial dishwashers including glass, under-the-counter, single-tank and conveyor dishwashers.

- A highly durable and easy-to-use dosing system
- Water-resistant, durable polypropylene enclosure.
- Designed and tested for hard-working industrial environments.
- Robust construction with no hard edges.

100 Pack Code: 951361

Cleanline 5-in-1 Dishwash Capsules **CL1045**

Cleanline 5-in-1 Dishwash Capsules contain 5 unique ingredients for cleaning stubborn and dried-on food and incorporates salt, enzymes and rinse aid for an effective clean and a sparkling finish.

- Each capsule delivers precisely the required dose of detergent for each wash cycle.
- 100 wash cycles per pack.
- Added enzyme activity and limescale inhibitor.
- Reduce plastic waste with 100% soluble capsules.
- Suitable for short and long cycle under counter dishwasher machines.

5L Code: 030000

Cleanline Original Washing Up Liquid **CL1023**

Cleanline Original Washing Up Liquid is an odourless mild detergent for everyday manual washing up of crockery, glassware and kitchen utensils.

- Odourless pH neutral detergent (10% active) ideal for everyday manual washing up.
- Suitable for cleaning all types of glassware and tableware including cutlery, crockery, stainless steel utensils, equipment and worktops.
- Effective as a general-purpose hard surface cleaner for floors, walls, tiles and vehicles.

5L Code: 033972

Cleanline Concentrated Lemon Washing Up Liquid **CL1024**

Cleanline Concentrated Lemon Washing Up Liquid is a mild scented general-purpose detergent for manual hand washing of pots, pans, crockery, glass, kitchen utensils and for general hard surface cleaning.

- Mild lemon fragranced pH neutral concentrated detergent (18% active).
- Cuts through fat, oil and grease with ease.
- Suitable for cleaning all types of glassware, cutlery, crockery, equipment and hard surfaces.
- Highly versatile cleaner and economical in use.

1L Code: 030001

Cleanline Concentrated Lemon Washing Up Liquid **CL1026**

Cleanline Concentrated Lemon Washing Up Liquid is a mild scented dishwashing detergent for manual hand washing of pots, pans, crockery, glass and kitchen utensils.

- Mild lemon fragranced pH neutral concentrated detergent (18% active).
- Soluble in hard and soft water at all temperatures.
- Cuts through fat, oil and grease with ease.
- Suitable for cleaning all types of glassware, cutlery, crockery, equipment and hard surfaces.
- Supplied in 1 litre easy squeeze hand bottle.

5L Code: 030420

Cleanline Concentrated Original Washing Up Liquid **CL1028**

Cleanline Concentrated Original Washing Up Liquid is a premium general-purpose detergent for manual hand washing of pots, pans, crockery, glass, kitchen utensils and for general hard surface cleaning.

- Odourless pH neutral detergent (18% active).
- Cuts through fat, oil and grease with ease.
- Suitable for cleaning all types of glassware and tableware including cutlery, crockery, stainless steel utensils, worktops, walls and floors.
- Highly versatile cleaner and economical in use.

Also available:
20 Litre (CL1027)

1L Code: 030422

Cleanline Concentrated Original Washing Up Liquid **CL1025**

Cleanline Concentrated Original Washing Up Liquid is a premium mild dishwashing detergent for manual hand washing of pots, pans, crockery, glass and kitchen utensils.

- Odourless pH neutral detergent (18% active).
- Soluble in hard and soft water at all temperatures.
- Cuts through fat, oil and grease with ease.
- Suitable for cleaning all types of glassware and tableware including cutlery, crockery, stainless steel utensils and worktops.
- Supplied in 1 litre easy squeeze hand bottle.

Also available:
20 Litre (CL1027)

5L Code: 031005

Cleanline Bactericidal Detergent **CL1029**

Cleanline Bactericidal Detergent is a general-purpose mild detergent proven to kill 99.99% of germs and passing the requirement for EN 1276 in dirty conditions.

- Cuts through grease and dirt leaving a clean and fresh mild lemon fragrance behind.
- Suitable for use as a manual hand dishwashing detergent with warm water to clean crockery and cutlery and equipment.
- General cleaning and disinfection dilute 1 in 120 parts in warm water and allow 5 minutes contact time.
- Independently certified to EN 1276.

5L Code: 030019

Bottle: 019110

Cleanline Neutral Detergent Plus Concentrate **CL1077**

Cleanline Neutral Detergent Plus is a multi-purpose neutral detergent for cleaning pots, pans, crockery and glass and is ideal for cleaning all kitchen utensils and washable hard surfaces.

- High 25% active detergent, cuts through stubborn dirt, grease and grime.
- Streak-free, easy rinsing for a superior finish.
- Non-perfumed and pH neutral formula is suitable for use in kitchens and on food preparation surfaces.
- Delivers excellent economy in use due to highly concentrated formulation.

5L Code: 030427

Cleanline Eco Mild Washing Up Liquid **CL1067**

Cleanline Eco Mild Washing Up Liquid is a general-purpose concentrated detergent for manual dishwashing and cleaning of kitchen equipment and pH sensitive hard surfaces.

- Cuts through grease, fat and oil on kitchen equipment, glassware, crockery, cutlery, pots, pans and ovenware.
- Suitable for cleaning all types of glassware, cutlery, crockery, equipment and hard surfaces.
- Safe to use on all pH sensitive hard surfaces and floors including limestone and marble.
- Contains no phosphates or added perfume.

1L Code: 030426

Cleanline Eco Mild Washing Up Liquid **CL1068**

Cleanline Eco Mild Washing Up Liquid is a general-purpose detergent for manual dishwashing and cleaning of kitchen equipment.

- Cuts through grease, fat and oil on kitchen equipment, glassware, crockery, cutlery, pots, pans and ovenware.
- Suitable for cleaning all types of glassware, cutlery, crockery, equipment and hard surfaces.
- Safe to use on all pH sensitive hard surfaces and floors including limestone and marble.
- Contains no phosphates or added perfume.
- Supplied in 1 litre easy squeeze hand bottle.

1L Code: 033466

Bottle: 019110

Cleanline Super Multi-Purpose Cleaner **CL1047**

Cleanline Super Multi-Purpose Cleaner Super Concentrate is a fragrance-free detergent for general cleaning and degreasing of hard surfaces and equipment.

- For cleaning a variety of hard surfaces including front of house tables, worktops, cupboard fronts, equipment surfaces, walls and hard floors.
- Non-perfumed and pH neutral formula is suitable for use in kitchens and food preparation surfaces.
- Cuts through the grease, oil and fatty deposits leaving the surface with a clean and spotless finish.
- Supplied in 1 litre easy-dose squeeze bottle for easy dilution without the need for additional equipment.

Also available:
5 litre (CL1046)

BIOCIDAL ACTIVITY:

- Passes protocol EN 14476:2013+A2:2019 against vaccinia virus at 2% dilution, with a 1 minute contact time under clean conditions.
- Passes protocol EN 1276 with only 30 seconds contact time at 2% dilution.

EFFECTIVE AGAINST
BACTERIA & VIRUSES

5L Code: 033356

Bottle: 019120

Cleanline Cleaner & Sanitiser Concentrate **CL1011**

Cleanline Cleaner & Sanitiser Concentrate is a dual-purpose odourless cleaner that is proven effective against bacteria and all enveloped viruses.

- Dual-purpose detergent disinfectant, cuts through grease and dried-on surface soiling.
- Fragrance-free and non-tainting in use.
- Ideal for use in kitchens and food preparation areas.
- Proven effective against most common forms of bacteria including MRSA and against enveloped viruses, including Coronaviruses.
- Independently certified to EN 14476:2013+A2:2019 and EN 1276.

T2

750ml Code: 036016

Cleanline Eco Foodsafe Cleaner & Sanitiser **CL1069**

Cleanline Eco Cleaner & Sanitiser is a dual-purpose odourless cleaner suitable for use in food preparation areas for cleaning and disinfecting utensils, crockery, equipment and hard surfaces.

- Dual-action ready-to-use cleaner and disinfectant.
- Cuts through grease and dried-on food soiling.
- Fragrance-free and non-tainting in use.
- Ideal for use in kitchens and food preparation areas.
- Proven effective against most common forms of bacteria including MRSA.
- Independently certified to EN 1276.

5L Code: 031960

Bottle: 019120

Cleanline Eco Foodsafe Cleaner & Sanitiser Concentrate **CL1070**

Cleanline Eco Cleaner & Sanitiser Concentrate is a dual-purpose odourless cleaner suitable for use in food preparation areas for cleaning and disinfecting utensils, glasses, crockery, equipment and hard surfaces.

- Dual-action concentrated formula cuts through grease and dried-on surface soiling.
- Fragrance-free and non-tainting in use.
- Ideal for use in kitchens and food preparation areas.
- Proven effective against most common forms of bacteria including MRSA and enveloped viruses.
- Independently certified to EN 1276 and EN 14476.

T2

750ml Code: 031412

Cleanline Catering Cleaner & Sanitiser RTU **CL1034**

Cleanline Catering Cleaner & Sanitiser RTU is a multi-purpose fragrance-free cleaner suitable for use on most hard surfaces in kitchens and food preparation areas.

- Dual-action formula cuts through grease and dried-on food soiling.
- Effective, non-bleach and no taint disinfectant cleaner.
- Suitable for use in kitchens and food preparation areas.
- Kills 99.999% of the most common forms of bacteria and tested against MRSA.
- Independently certified to EN 1276 and EN 14476.

5L Code: 031410

Cleanline Catering Cleaner & Sanitiser **CL1036**

Cleanline Catering Cleaner & Sanitiser is a multi-purpose fragrance-free cleaner suitable for use on most hard surfaces in kitchens and food preparation areas.

- Dual-action concentrated formula cuts through grease and dried-on food soiling.
- Effective, non-bleach and no taint disinfectant cleaner.
- Suitable for use in kitchens and food preparation areas.
- Kills 99.999% of the most common forms of bacteria and tested against MRSA.
- Independently certified to EN 1276 and EN 14476.

Cleanline Sanitising Wipes

200 Wipes **CL4028**

Cleanline Sanitising Wipes are a fast-acting disinfectant blue wet wipe for cleaning hard surfaces and equipment and proven effective against a range of micro-organisms including bacteria, yeast and enveloped viruses.

- Fast-acting blue disinfectant wet wipe.
- Proven effective against a range of micro-organisms such as bacteria, yeast and enveloped viruses.
- Cleans and disinfects hard surfaces without using QUATS, PHMB or alcohol.
- Independently certified to a range of test standards including EN 1276, EN 13697, EN 1650 and EN 14476.

QUICK REFERENCE: MEASURES AND DILUTION

Water	Chemical Dose (Combined total 1 litre volume)	Dilution Percentage	Ratio	Parts Per Million (ppm)
999.9ml	+ 0.1ml	= 0.01%	= 1 in 10,000 parts	= 100 ppm
999ml	+ 1ml	= 0.10%	= 1 in 1,000 parts	= 1,000 ppm
995ml	+ 5ml	= 0.50%	= 1 in 200 parts	= 5,000 ppm
990ml	+ 10ml	= 1%	= 1 in 100 parts	= 10,000 ppm
980ml	+ 20ml	= 2%	= 1 in 50 parts	= 20,000 ppm
960ml	+ 40ml	= 4%	= 1 in 25 parts	= 40,000 ppm
950ml	+ 50ml	= 5%	= 1 in 20 parts	= 50,000 ppm
900ml	+ 100ml	= 10%	= 1 in 10 parts	= 100,000 ppm
800ml	+ 200ml	= 20%	= 1 in 5 parts	

Heavy Duty Degreasers

5L Code: 039420

Cleanline Degreaser **CL1004**

Cleanline Degreaser is an alkaline detergent designed to cut through grime and grease on most hard surfaces, including floors, walls and equipment.

- Removes the heaviest residues of grease, fats and vegetable oils.
- Non-perfumed formula, ideal for use in kitchens and food preparation areas.
- Suitable for use on floors, walls and other hard surfaces.
- Removes build-up of solvent based waxes and emulsion based floor polishes.

Also available
20 Litre (CL1003).

5L Code: 043402

Cleanline Heavy Duty Bactericidal Degreaser **CL1006**

Cleanline Heavy Duty Bactericidal Degreaser is a powerful, odourless and non-tainting cleaner that removes heavy build-up of grease and grime from hard surfaces.

- Fragrance-free bactericidal cleaner degreaser.
- Suitable for use in kitchens and food preparation areas.
- For cleaning all water-resistant surfaces, such as glass, stainless steel, ceramic and tiled surfaces.
- Proven effective against most common forms of bacteria including MRSA.
- Independently certified to EN 1276.

5L Code: 033971

Bottle: 019130

Cleanline Cleaner & Degreaser Concentrate **CL1002**

Cleanline Cleaner & Degreaser Concentrate is a powerful cleaner suitable for use on most washable hard surfaces to remove stubborn grease and grime.

- Non-perfumed, non-tainting in use.
- Ideal for use in kitchens and food preparation areas.
- Effective cleaning of washable hard surfaces, equipment and various floors types, including 'Altro' type non-slip flooring.
- Suitable for use on plastic, laminate, ceramic, glass, metal and painted surfaces.
- Concentrated and economical in use.

5L Code: 039419

Bottle: 019130

Cleanline Solvent-Free Cleaner & Degreaser **CL1005**

Cleanline Solvent-Free Cleaner & Degreaser is an effective and versatile high-alkaline, solvent-free degreaser suitable for cleaning most washable hard surfaces.

- Removes the heaviest build-up of grease and grime and is free from solvents.
- Use for mopping, damp wiping, spray cleaning and deep cleaning applications.
- Solvent-free, non-perfumed and non-tainting in use.
- Ideal for use in kitchens and food preparation areas.
- Concentrated and economical in use.

750ml Code: 043409

Cleanline Heavy Duty Cleaner & Degreaser RTU **CL1083**

Cleanline Heavy Duty Cleaner & Degreaser is a powerful ready-to-use degreaser suitable for use on most washable hard surfaces and equipment in kitchens and food preparation areas.

- A powerful, multi-purpose cleaner and degreaser.
- Quickly removes heaviest build-up of food-based soiling, oils and carbonised deposits.
- Non-perfumed and non-tainting in use.
- Developed for a wide range of applications in kitchens, food processing operations and general industry.

PREMIUM FORMULA

5L Code: 043406

Bottle: 019130

Cleanline Heavy Duty Cleaner & Degreaser Concentrate **CL1001**

Cleanline Heavy Duty Cleaner & Degreaser Concentrate is a powerful, fragrance-free degreaser suitable for use on most washable hard surfaces and equipment in kitchens and food preparation environments.

- A powerful formula, effective at removing the heaviest build-up of food-based soiling, oils & carbonised deposits.
- Fragrance-free formula, ideal for use in kitchens and food preparation areas.
- Ideal for heavy duty cleaning of hard floors including 'Altro' type non-slip flooring.

Heavy Duty Degreasers and Destainers

Cleanline Super Heavy Duty Cleaner & Degreaser **CL1051**

Cleanline Super Heavy Duty Cleaner & Degreaser is a powerful multi-purpose degreaser for cleaning oils and carbonized deposits from hard surfaces and equipment.

- Effective at removing food-based soiling, oils and carbonised deposits.
- Phosphate-free and non-fragranced formula, ideal for use in kitchens and food preparation areas.
- Removes heavy build-up of solvent based waxes and emulsion based floor polishes.
- Suitable for cleaning of cooker hobs, ovens & canopies.
- Supplied in 1 litre easy-dose squeeze bottle for easy dilution without the need for additional equipment.

Part of the
Eco Star Standard

T5

Cleanline Eco Orange Citrus Degreaser RTU **CL4047**

Cleanline Eco Orange Citrus Degreaser is a naturally powerful multi-purpose cleaner that removes heavy grease, oils, sticky finger marks, scuffs and ink stains from a wide range of hard surfaces.

- Powerful and highly versatile citrus formula.
- Effective at removing ink stains, scuffs and sticky finger marks from all hard surfaces.
- Excellent at lifting grease, oils and carbon deposits from ovens, griddles, BBQs and other hard surfaces.
- Pleasant natural orange citrus fragrance.

750ml Code: 033351

Part of the
Eco Star Standard

A highly versatile all-purpose cleaner removes ink stains, scuffs, sticky finger marks and more.

Cleanline Destainer & Tannin Remover **CL1007**

Cleanline Destainer & Tannin Remover is a liquid chlorine based destainer that works as a pre-soak treatment to remove tannin from all types of crockery, cups and saucers.

- High strength liquid tannin stain remover.
- Ideal for use in catering and hospitality institutions.
- Effectively removes grease, protein, fats, fruit and sugars from glass, crockery and all hypochlorite resistant surfaces.
- Incorporates a hard water formulation to protect surfaces from scale build-up.

5L Code: 030989

Cleanline Super Destaining Powder **CL1062**

Cleanline Super Destaining Powder is a fast-acting crockery destainer that safely and effectively removes tannin stains caused by tea and coffee on crockery, vending machines and cutlery.

- Highly effective at removing scale and tannin staining caused by tea and coffee on crockery, vending machines and cutlery.
- Fragrance free.
- Leaves no residue behind once rinsed.
- Can be used as a pre-soak for cups, teapots, coffee jugs and teaspoons before dishwashing.

5kg Code: 032188

Catering Equipment Descalers and Oven Cleaners

Cleanline Catering Descaler

5L CL1009

1L CL1093

Cleanline Catering Descaler is a heavy-duty acid cleaning agent for the removal of hard water limescale from catering equipment and dishwashing machines.

- Powerful acidic formula removes hard water limescale built-up and inorganic deposits.
- Multi-purpose descaler, ideal for use on kettles, commercial dishwashers, hot water urns, bain-maries, and other water retaining vessels.
- Helps preserve the life of catering equipment and appliances.
- Suitable for use on stainless steel and chrome appliances.

1L Code: 033369

Other Sizes

5L Code: 033353

Cleanline Washroom & Kettle Descaler

CL3003

Cleanline Washroom & Kettle Descaler is an effective and powerful formula that treats and helps prevent limescale build-up, leaving surfaces shiny and watermark-free.

- Highly effective removal of tough limescale without the need for heavy scrubbing.
- Ideal for spray application on vertical surfaces.
- Creates a barrier to help prevent watermarks.
- Leaves a long-lasting shine.
- Suitable for use on fixtures, sinks, wash basins, toilet bowls/urinals, taps, shower heads and bathroom tiles.

750ml Code: 037456

Cleanline Oven & Grill Cleaner

CL1041

Cleanline Oven & Grill Cleaner is a powerful alkaline foaming spray cleaner for effective removal of grease, oil and burnt on carbon deposits from most oven and grill surfaces.

- Powerful alkaline, fume-free cleaner.
- Cuts through grease, carbon and baked on deposits from cookers and utensils.
- Sticks to vertical surfaces and grills for direct cleaning action and emulsifies oils for easy rinsing and less mess.
- Safe for use on stainless steel surfaces.
- Bottle is made from 100% recycled material and is 100% recyclable including the foaming trigger head.

750ml Code: 040403

Other Sizes

5L Code: 040400

Cleanline Oven Cleaner Gel

CL1078

Cleanline Oven Cleaner Gel has a high strength viscous gel formula for effective removal of heavy grease, oil and burnt on carbon deposits from ovens and grills.

- High strength viscous gel formula.
- Powerful cleaning action, removes heavy grease, oil and burnt on carbon deposits.
- Effective cleaning of ovens, grills, utensils and roasting dishes.
- Coats and clings to vertical surfaces improving contact time and overall cleaning performance.

1L Code: 040401

Cleanline Super Combi Oven Cleaner

CL1084

Cleanline Super Combi Oven Cleaner is a concentrated detergent designed for automatic dosing into a self-clean oven and is highly effective at removing fatty carbonised deposits.

- High active, low foaming detergent for use in ovens that have the capability to self-clean.
- Effective on a wide range of soil types and particularly effective on fatty carbonised deposits.
- Removes heavy burnt on grease and food from all surfaces inside the oven.
- For best results use in conjunction with Cleanline Super Combi Oven Rinse (CL1085).

ASK FOR INFO

Cleanline Super Combi Oven Rinse

CL1085

Cleanline Super Combi Oven Rinse is a concentrated final rinse additive suitable for use in all water conditions and designed for automatic dosing into self-cleaning ovens.

- A blend of low foaming surfactants to promote rapid drying.
- Suitable for use in all types of automatic dish and glass washing machines and self-cleaning ovens.
- Designed to improve the drying and spot free finish of crockery, cutlery and glassware.
- Use in conjunction with Cleanline Super Combi Oven Cleaner (CL1084).

Beerline Cleaner and Drain Maintenance

5L Code: 036460

Cleanline Detectable Beerline Cleaner **CL1076**

Cleanline Detectable Beerline Cleaner is a powerful chlorinated alkaline detergent with colour indicating additive specifically formulated to clean beer dispensing lines, tanks and taps.

- Regular treatment maintains dispensing lines clear and reduces the possibility of fogging of the beer.
- Unique colour changing additive indicator shows when dispensing lines are clean.
- Removes yeast and bacteria which accumulate on plastic beer dispensing lines during normal usage.
- Will not adhere to the plastic line so tainting and head retention problems are totally eliminated.

1L Code: 033359

Cleanline Heavy Duty Drain Maintainer & Unblocker **CL1008**

Cleanline Heavy Duty Drain Maintainer & Unblocker will remove heavy organic residues from bathroom and kitchen drains and will not damage PVC piping or stainless steel.

- Fast acting and powerful liquid drain cleaner.
- Quickly removes fat, grease, hair, food blockages and other tenacious deposits.
- Rapid results on blocked drains and pipework from sinks, showers and industrial drainage systems.
- Suitable for use in pipes, drains and U-bends. Does not damage PVC or stainless steel.

5L Code: 036017

Cleanline Eco Grease Trap Maintainer **CL1072**

Cleanline Eco Grease Trap Maintainer is a non-toxic biological grease trap, drain and gully cleaner based on high active, long-lasting micro-organisms that breaks down all types of fats, oils and grease.

- Uses unique bacterial strains that are specially selected to degrade Fats, Oils and Grease (FOG's).
- Works effectively in lower pH ranges found in grease traps and grease interceptors.
- Daily dosing ensures that a thriving biofilm is maintained while allowing the bacteria to spread with the flow of water.
- Use with a drain maintenance dispensing system.

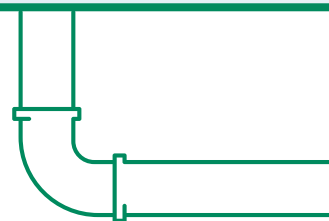

Other Sizes

10L Code: 037441

Slow running and blocked drain consequences:

- Food particles accumulate and odours develop.
- Blockages occur when organic material, carried by waste water, cools and is deposited in pipes.
- Continuous use of harsh chemicals damages drains and results in costly call outs and repairs.

REMEDY

- Grease traps are used to keep excessive grease from collecting downstream in the system. If not maintained these cause back-up, damage, sanitation problems, expensive repairs, sewer overload and malodours.
- Install Cleanline Grease Trap Maintainer enzyme based auto-dosed solution to manage the drain system.
- Regular applications will help to keep drains flowing, saving expensive jetting and rodding.

Grease traps are used to keep excessive grease from collecting downstream in the system. If not maintained this causes back up, damage, sanitation problems, and expensive repairs, sewer overload and malodours.

Drain Maintenance Dispensing System

A durable and reliable dispensing system for delivery of a set dose of Cleanline Eco Grease Trap Maintainer at timed intervals.

- Available as a mains or battery-operated system, used for drain and grease trap maintenance.
- Long-life premium motor for extended running life.
- LCD interface with character display and backlight for ease-of-use.
- Optional access code protection to prevent unauthorised use.
- Easily serviced from the front with compression connectors to facilitate quick tube changes.

Floor Polish Remover and Polish

5L Code: 051422

Cleanline Easy Strip Polish Remover **CL2005**

Cleanline Easy Strip Polish Remover is a high-performance emulsion polish stripper suitable for application with a mop or scrubbing machine.

- Fast acting emulsion polish stripper, penetrates through multiple coats of floor polish.
- Removes polish from vinyl, rubber, sealed wood, quarry tile and most common hard floor surfaces without the aid of a scrubbing machine.
- Suitable for application with a mop or scrubbing machine.
- Ideal for areas where machines are not accessible such as stairs and small multi-level floor surfaces.

5L Code: 043407

Cleanline Non-Ammoniated Polish Remover **CL2004**

Cleanline Non-Ammoniated Polish Remover will efficiently remove layers of emulsion and metallised floor polish from hard floor surfaces.

- For quick and clean removal of floor polish on all alkali resistant hard flooring.
- Effective removal of impacted dirt from concrete and non-porous surfaces
- Suitable for use on vinyl, rubber, sealed wood and quarry tiled hard floor surfaces.
- For general polish removal apply via mop or using a scrubber dryer machine.

5L Code: 051406

Cleanline Wet Look Floor Polish **CL2001**

Cleanline Wet Look Floor Polish is a high solids metallised gloss finish emulsion floor polish.

- Effective and simple-to-use high solids liquid floor polish that incorporates a unique softer polymer formulation.
- Allows surface scuff marks to be quickly repaired and buffed to a wet-look finish.
- For sealed floors product covers between 200 to 220 square metres. For unsealed floors product covers between 120 to 150 square metres.

5L Code: 051401

Cleanline Uniseal Plus Floor Polish 25% **CL2002**

Cleanline Uniseal Plus Floor Polish is an extra high 25% solids, dry-bright metallised emulsion floor polish that produces a long-lasting durable shine with an excellent response to spray buffing.

- Extra high 25% solids emulsion floor polish. Extend the period between stripping and re-polishing operations.
- Highly effective for use on high wear flooring.
- Produce a long-lasting durable shine with an excellent response to spray buffing.
- For sealed floors product covers between 200 to 220 square metres. For unsealed floors product covers between 120 to 150 square metres.

5L Code: 051987

Cleanline Acrylic Floor Sealer **CL2006**

Cleanline Acrylic Floor Sealer is a water emulsion sealer based on tough thermoplastic acrylic polymer.

- Provides a foundation on hard surfaces prior to metallised floor polish application.
- Ideal for use on old linoleum and impoverished, worn floors that have become porous.
- Suitable for interior stone and concrete floors and prevents concrete from dusting.

5L Code: 051431

Cleanline Universal Floor Cleaner **CL2007**

Cleanline Universal Floor Cleaner is an effective and versatile solvent-free cleaner that removes the every-day build-up of grease and grime from most hard floor surfaces.

- Solvent-free and non-perfumed formula can be used in kitchens and food preparation areas.
- Removes the build-up of grease and grime from most hard floor surfaces.
- Suitable for use on vinyl, rubber, sealed wood, quarry tile and most common hard floor surfaces.
- Concentrated and economical floor cleaner.

Hard Floor Cleaners and Maintainers

Cleanline Floor Maintainer

CL2003

Cleanline Floor Maintainer repairs and re-coats hard floor surfaces leaving a protective slip resistant finish and fresh cologne fragrance.

- Repairs and re-coats hard floor surfaces.
- For routine spray buffing, mopping and scrubber drying of hard floors.
- Suitable for floors previously coated with a metallised floor polish.
- Extends the life of a floor finish and provides a protective slip resistant finish.

5L Code: 051430
Bottle: 019105

Cleanline Eco Floor Maintainer

CL2017

Cleanline Eco Floor Maintainer is a concentrated cleaner suitable for spray buffing, mopping and scrubber drying of all water-resistant hard floors.

- Solvent-free floor maintainer designed to give and maintain a high gloss finish. Effective at removing scuff marks and extends the life of a polished floor.
- Repairs and re-coats surfaces leaving a protective slip-resistant finish. pH neutral formula, safe for use on all hard floor surfaces including marble, stone and wood.
- Low foaming for fast solution pick-up and optimal recovery tank use.

5L Code: 051429
Bottle: 019105

Cleanline Super Floor Cleaner & Maintainer

CL2016

Cleanline Super Floor Cleaner & Maintainer Super Concentrate is a dual-action low foaming cleaner and floor polish maintainer.

- Highly efficient dual action floor cleaner maintainer.
- Repairs and re-coats surfaces leaving a protective, slip resistant finish.
- Will remove scuff marks with ease. Buffable for extra gloss floor finish.
- Can be used through high-speed floor care machines.
- Supplied in 1 litre easy-dose squeeze bottle for easy dilution without the need for additional equipment.

1L Code: 051457
Bottle: 019105

Cleanline Eco Lemon Floor Gel

CL2018

Cleanline Eco Lemon Floor Gel is a concentrated multi-surface cleaner with a refreshing citrus fragrance.

- Suitable for use on most floor types including linoleum, vinyl, woodblock and terrazzo tile floors.
- The natural oils help to gently clean without stripping polished floors and can be buffed to a high sheen.
- The unique formula dissolve scuff and heel marks whilst bringing back floor surfaces to a high shine.
- Low foaming and pine-oil free formula.
- Concentrated and economical in use.

5L Code: 051437

Cleanline Neutral Scrubber Dryer Detergent

CL2010

Cleanline Neutral Scrubber Dryer Detergent is a low foaming detergent that has efficient soil suspending properties suitable for frequent cleaning of sensitive floor surfaces.

- Neutral low-foaming detergent perfect for removing grease and dirt.
- Rapid cleaning action of sensitive floor surfaces.
- Can be used for daily maintenance of marble, stone, terrazzo and even metallised polish.
- Suitable for use with all scrubber dryer machines and for general scrub applications.

5L Code: 030988

Cleanline Heavy Duty Scrubber Dryer Detergent

CL2009

Cleanline Heavy Duty Scrubber Dryer Detergent is a specially formulated, low foaming floor cleaner for use with general machine scrub applications.

- A low-foaming, heavy duty formulation effective at removing the toughest grease, grime and dirt.
- Powerful cleaning action enables single-pass application.
- Ideal for use in large floor spaces such as storage areas, factories and warehouses.
- Suitable for all scrubber dryer machines and for general scrub applications.

5L Code: 051440

Cleanline Eco Daily Toilet Cleaner **CL3031**

Cleanline Eco Daily Toilet Cleaner is a mild cleaner for the daily maintenance of toilets and urinals.

- Viscous formula uniformly coats and clings to surfaces for more thorough cleaning action and reduces limescale build-up where germs and bacteria breed.
- Safe to use on a variety of hard surfaces including porcelain, stainless steel, chrome and ceramic tiles.
- Excellent in soft water and leaves a fresh citrus fragrance.
- Restrictive flow cap nozzle to help prevent over application.
- Simple and easy to apply with an angled neck 1 litre bottle helping reach right under the toilet rim.

1L Code: 037455

Cleanline Perfumed Toilet Freshener **CL3040**

Cleanline Perfumed Toilet Freshener is a highly citrus fragranced, thickened toilet cleaner with a neutral pH for daily and routine cleaning of all washroom surfaces.

- Highly perfumed cleaner developed for daily use to freshen toilets, urinals and washroom surfaces.
- Provides a refreshing long-lasting citrus fragrance.
- Neutral pH and safe for use on all types of toilet bowls, urinals, sinks, baths and tiles.
- Viscous formula uniformly coats and clings to deodourise and freshen the surface.
- Simple and easy to apply with an angled neck 1 litre bottle helping reach right under the toilet rim.

1L Code: 037424

Cleanline Acid Toilet Descaler **CL3008**

Cleanline Acid Toilet Descaler is a fast-acting sulphamic acid based daily cleaner and descaler suitable for use on toilets, urinals and other ceramic surfaces.

- Two-in-one sulphamic acid based cleaner descaler.
- Effective at tackling stubborn stains and removing limescale build-up.
- Helps protect toilets, urinals and ceramic surfaces against long-term damage caused by limescale.
- Safe for use on stainless steel, porcelain, enamel and chrome fittings.
- Simple and easy to apply with an angled neck 1 litre bottle helping reach right under the toilet rim.

1L Code: 037451

Other Sizes

5L Code: 037450

Cleanline Toilet Cleaner Renovator **CL3009**

Cleanline Toilet Cleaner Renovator is a powerful viscous washroom cleaner for the effective removal of limescale and organic deposits from toilets and urinals.

- Powerful viscous formula using a blend of phosphoric and sulphamic acids.
- Effectively cleans and descales toilets and urinals and general washroom surfaces including taps and sinks.
- Safe for use on stainless steel and chrome fittings.
- Leaves a distinctive pleasant parma violet fragrance.
- Simple and easy to apply with an angled neck 1 litre bottle helping reach right under the toilet rim.

Cleanline Super: Easy self-dosing concentrates

Cleanline Super easy self-dosing concentrates deliver an accurate measurement without the need for additional dispensing equipment at point-of-use.

Simply squeeze and fill the chamber to the desired dosage and pour. Controlling the dosage avoids excessive product being used and reduces cost-in-use.

Simple and
easy dilution
system, just
add water...

1 Fill the labelled trigger bottle with 600ml of clean water.

2 Remove cap and gently squeeze the bottle to fill the chamber to the required dosage

3 Carefully pour the dose in to the bottle or bucket.

4 Replace trigger head and shake gently to mix solution.

Ready-to-use.
