## Secure the new hygiene standard

Tork products  
for Care Homes

“Although Tork were able to evidence that cost savings, reductions in waste management and time filling the dispensers could be made, the reality a year later proves it worked, delivering a successful outcome.”

**Amanda McIntosh, Assistant Procurement Officer,  
County Durham and Darlington NHS Trust**

# Tork Clean Care™ Programme

## Good healthcare starts with good hygiene.

When taking care of patients and visitors, a high standard of hygiene is critical to improving the quality and safety of your care. Our evidence-based insights and recommendations help you stay on top of hygiene and focus on what really matters

– providing excellent care for your patients.

## Find the right tools and advice

### Tools & Tips

Did you know that placing dispensers properly can help minimise cross-contamination and reduce the spread of healthcare-associated infections?

Learn about optimal dispenser placement and other tools and tips for improving hygiene standards in your facility. We are happy to share!

## Eco-labels and certifications

### FSC® certification

FSC stands for Forest Stewardship Council®. FSC is a global, non-for-profit organisation that sets the standards for what is considered to be a responsibly managed forest, both environmentally and socially. For wood products, FSC certification bears the highest recognition. The certification ensures that all companies along the supply chain meet best practice standards in wood fibre traceability. In this way, FSC works to uphold sustainable, environmentally and socially responsible global forestry practices and counteract illegal forestry operations. To learn more, visit: [www.fsc.org/](http://www.fsc.org/)

### EU Eco-label

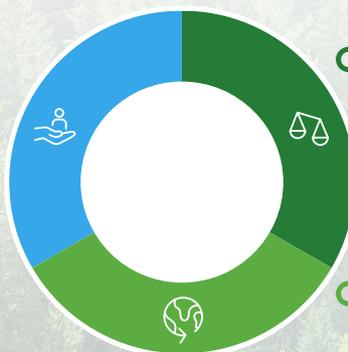

This is the European Union's labelling scheme for of environmental excellence that is awarded to products and services meeting high environmental standards throughout the lifecycle. Tissue products with the EU Eco-label certification that meet this standard are made from recycled fibre or virgin fibre from 100% responsibly managed forests. To learn more, visit: [ec.europa.eu/ecat/](http://ec.europa.eu/ecat/)

## A sustainable life away from home – our focus areas

### Well-being

Raising hygiene standards for all and improving well-being in the workplace

**Ambition by 2030:**  
60% of innovations shall be People Innovations

### More from less

Building value using less by enabling behaviours that support sustainable consumption

**Ambition by 2030:**  
Better solutions with 33% lower environmental footprint

### Circularity

Designing products and services that contribute to a circular society

# Hand hygiene

As new and former healthcare workers are entering the workforce to meet increased demand, it's more important than ever to reinforce proper hand hygiene to control the spread of infectious diseases like COVID-19.

They should use hand sanitisers or wash their hands with soap and water according to the World Health Organization's "My 5 Moments for Hand Hygiene" approach. Some key moments to perform hand hygiene during the COVID-19 outbreak include:

- before and after all patient contact
- contact with potentially infectious materials
- before putting on and after removing personal protective equipment (PPE)

If their hands are visibly soiled, they should wash their hands with soap and water.

You should ensure that hand hygiene supplies are readily available to all personnel in every care location. Below are also some resources to reinforce proper hand hygiene techniques with new healthcare staff members.

067003	Tork Xpress® Flushable Multifold Hand Towel, 2 Ply, 200 towels x 21 / 129089	H2	White	2

## Key benefits:

-  Slim, attractive and award-winning dispensers.
-  Single sheet dispensing reduces consumption and is more hygienic since visitors only touch the towel they use.
-  Overfill protection for easy refill. See through window shows when it's time to refill.
-  Tork Easy Handling™ Carry Pack makes it easier to open, carry and dispose of packaging.

## Tork SmartOne Twin Mini Toilet Roll

The Tork SmartOne® Toilet Roll System offers a top-up-in-use solution so you need never run out of tissue, whilst offering single sheet dispensing and fully enclosed rolls.

- Hygienic system: fully enclosed roll reduces cross-contamination
- Cost effective system: reduces consumption by up to 40%\*
- High capacity: 1,240 sheets per full dispenser
- Cost effective system: reduces consumption by up to 40%\*

“Tork SmartOne is brilliant. We are so pleased with the success of SmartOne that we’ve rolled it out across all nine of our community sites and will never switch back to folded toilet tissue dispensers.”

**June Davies, Head of Hotel Services at Ysbyty Gwynedd, Betsi Cadwaladr University Health Board**

BCHS Code	Product Description	Refill ID	Colour	Ply
064364	Tork SmartOne Twin Mini Dispenser / 682000	T9	White	-
064139	Tork SmartOne Mini Toilet Tissue / 472193	T9	White	2

\*Compared to traditional jumbo roll dispenser which means more visits per roll.

## Tork Mid-size Coreless Toilet Roll

The Tork Coreless Mid-size Toilet Tissue System holds up to 1,800 sheets, has a top-up-in-use facility and controls dispensing, making it perfect where service time needs to be reduced.

- Large capacity: allows staff to perform other important tasks
- Slide mechanism: second roll can only be accessed when the first roll is finished
- Coreless: no cores littering the floor

BCHS Code	Product Description	Refill ID	Colour	Ply
066108	Tork Twin Coreless Mid-size Toilet Roll Dispenser / 558040	T7	White	-
064130	Tork Coreless Mid-size Toilet Rolls, 2 Ply / 472199	T7	White	2

# Tork Extra Mild Liquid and Foam Soap

- Tork Extra Mild liquid and foam soaps are allergy friendly certified by ECARF, the European Centre for Allergy Research Foundation, perfect for frequent hand washing
- The sealed refill with single use pump reduces the risk of cross contamination

### Collapsible bottle

Reduces waste volume for disposal

### Extra high capacity

Up to 2,500 shots: very low maintenance

### 5 second refill time

less time spent on refilling

### Low push force

suitable for staff, the elderly and the infirm

061654

### Flexible lock

Two position lock allows for either secure locking or push button release without key

### Single use refill

Each refill has new pump and nozzle: no cross contamination

061662

061661

061663

“There are more shots of soap in each refill than with our previous liquid soap, therefore we don’t use as many refills resulting in less plastic coming into the building. Besides being a sustainability advantage, this also means that the soap is more cost effective and saves us money.”

**Paul Harrison, Buyer, Interserve Support Services**
