

# A healthy place to learn starts with good hygiene practices

**81%**  
of students are concerned about becoming ill due to poor hygiene<sup>1</sup>

**The Tork Hygiene Package™ offers you everything you need to help:**

-   
Improve cleaning quality and promote hygiene for a healthy campus environment
-   
Increase operational efficiency
-   
Meet your sustainability goals

1. 2020 research study by Kantar commissioned by Essity

## Tork solutions

**For health and well-being**, Tork hygiene solutions contribute to a healthy learning environment and help prevent the spread of infection across campus, from washrooms to fitness centres.

**For efficiency**, real-time information on refill and cleaning needs from Tork Vision Cleaning enables higher quality cleaning, double-digit efficiency gains and an appreciated boost to staff engagement.

**For sustainability**, Tork delivers solutions based on resource-efficient and environmentally sound sourcing, production and development. Our credentials support your supply chain sustainability goals.

### No.1: Washrooms

Improve student and staff hygiene and well-being with complete hygiene and efficient solutions.

Tork PeakServe® Continuous™ Hand Towel Dispenser 552500  
**BCHS Code: 066110**

Tork Foam Skincare Dispenser with Intuition™ Sensor 561600  
**BCHS Code: 061655**

Tork SmartOne® Twin Mini Toilet Roll Dispenser 682000  
**BCHS Code: 064364**

### No.2: Lecture rooms and common areas

Improve student hygiene in high-traffic environments.

Tork Hygiene Floor Stand 511055  
**BCHS Code: 017100**

Tork Foam Skincare Dispenser with Intuition™ Sensor 561600  
**BCHS Code: 061655**

Tork Reflex™ Single Sheet Centrefeed Dispenser 473180  
**BCHS Code: 069149**

Tork Salubrin Gel Sanitiser 911103  
**BCHS Code: 060909**

### No.3: Sport facilities and fitness centres

Improve student hygiene in busy environments.

Tork PeakServe Continuous™ Hand Towel Dispenser 552500  
**BCHS Code: 066110**

Tork Liquid and Spray Skincare Dispenser 560000  
**BCHS Code: 061651**

Tork Reflex™ Single Sheet Centrefeed Dispenser 473180  
**BCHS Code: 069149**

Tork Reflex® Portable Centrefeed Dispenser 473188  
**BCHS Code: 069148**

### No.4: Cafeterias and kitchens

Optimise workflow, prevent cross contamination to help improve hand hygiene.

Tork PeakServe® Continuous™ Hand Towel Dispenser 552500  
**BCHS Code: 066110**

Tork Foam Skincare Dispenser with Intuition™ Sensor 561600  
**BCHS Code: 061655**

Tork Reflex™ Single Sheet Centrefeed Dispenser 473180  
**BCHS Code: 069149**

## Hand hygiene

Regardless of the type of educational institution you manage, following basic hand hygiene principles can help keep students, teachers and staff safe and help reduce the spread of the virus that causes COVID-19. While each age level requires different approaches to encourage proper hand hygiene, three principles always apply:

- Sick students, teachers and staff should not come to school.
- Encourage frequent and thorough hand washing.
- Ensure hand hygiene stations are stocked with soap and single-use paper hand towels and have warm water. Drying hands with paper hand towels lowers the risk of spreading bacteria; whereas, air dryers can spread significantly higher levels of germs into the air.<sup>1</sup> Paper hand towels also support many uses beyond hand drying such as: blowing noses, wiping mouths, adjusting cosmetics, medical needs and helping avoid dirty door handles.

Below are suggestions on how to engage students of different ages to help reduce the spread of the novel coronavirus and other pathogens.

- **Early Years:** Teach good health habits, such as covering coughs and sneezes with their elbow and washing hands frequently with signage prompts to encourage regular hand washing. Sing a song while washing hands for at least 20 seconds, such as “Twinkle, Twinkle, Little Star”. Track and reward proper hand washing and encourage students to use the Ella’s Hand Washing app by Tork (See page 11).
- **Primary and Secondary School:** Focus on encouraging good health habits, such as coughing and sneezing into the elbow and washing hands. Remind students to model good hand hygiene for their fellow students and their families by continuing practices at home. Dedicate lessons to learn why hand hygiene is so important. Use the Max’s Hand Washing School material by Tork for experiments and tips (See page 12).
- **Higher Education:** Educate students, teachers and staff about hand hygiene techniques upon returning from a shutdown, during orientation and regularly throughout terms. Hang up-to-date hygiene and hand-washing signage throughout school facilities, especially in washrooms. Place hand sanitiser at entrances and exits to buildings, classrooms, washrooms, cafeterias and libraries with signage prompts to encourage regular use

The following pages will provide additional resources to help you promote proper hand hygiene in early years, primary and secondary schools and higher education facilities.

The friction of drying with paper towels removes **more bacteria** than other methods.<sup>2</sup>

1. Redway K, Fawdar S. A comparative study of three different hand drying methods: paper towel, warm air dryer, jet air dryer. European Tissue Symposium (ETS). 2008.  
 2. Best EL, Parnell P, Wilcox MH. Microbiological comparison of hand-drying methods: the potential for contamination of the environment, user and bystander. J Hosp Infect. 2014 Dec;88(4):199-206.

# Tork skincare delivers efficacy and sustainability

Companies value sustainable products and solutions to meet sustainability business targets. In tandem, employees feel more positively about their workplace when sustainable products are implemented.

With Tork skincare formulations, decision makers do not have to compromise on quality to meet their sustainability targets.

**Nearly all Tork skincare refills have third-party EU eco-label certification, helping to reduce environmental impact.**

<sup>14</sup> Based on Essity test

<sup>15</sup> Proven by third part lab test according to OECD301B

<sup>16</sup> Essity usage studies on 20,000 hand washes, comparing different liquid soaps (including basic soap) to Tork foam and Spray Soap Systems

<sup>17</sup> Based on an internal panel test comparing Tork Mild Foam Soap

# The full Tork skincare offer for an effective handwashing experience

With our full range of formulations and dispensers for all washroom needs, we can guide you to select the right hand hygiene solution for your washroom.

# With Tork you don't need to choose between hygiene and sustainability

The main sustainability challenges for operations managers are: reducing carbon emissions and waste, and increasing health, hygiene and safety standards<sup>1</sup>. Sustainability is integrated at the core of our business and we continuously develop solutions that improve well-being, do more from less and contribute to circularity. In other words: when choosing Tork you get the products, services, tools and support to help meet your sustainability requirements – without compromising on hygiene and safety.

## Well-being

Campus operations management can be complex and the work physically challenging. Tork Vision Cleaning helps to make managing the entire operation easier, more efficient and supports empowered ways of working for all cleaning staff. Our products are developed with sustainability in mind and to be less harsh in use, such as Tork Clarity Hand Washing Foam Soap, which has a readily biodegradable formula<sup>2</sup>.

### Tork Vision Cleaning

**24%**

fewer cleaning rounds with improved quality with data-driven cleaning<sup>3</sup>

### Tork Vision Cleaning

**30%**

higher customer satisfaction<sup>4</sup>

## More from less

The best way to cut carbon emissions and waste is to get more results from fewer resources. That's why Tork products are based on environmentally sound, resource-efficient sourcing and production. They also encourage efficient usage and less waste through innovations like one-at-a-time dispensing and compressed refills.

### Tork Clarity Hand Washing Foam Soap

**35%**

less water consumption<sup>5</sup>

### Tork Xpressnap Fit<sup>®</sup>

Cuts unused napkins thrown away by more than

**50%**<sup>6</sup>

## Circularity

Going circular means re-thinking the way we do business, using resources more efficiently and reducing waste. Our goal is to design products and services that fit into a circular society. By partnering with like-minded companies, we can close the loop in Professional Hygiene.

### Circularity initiatives

We assist universities with **zero waste** to landfill goals

### Circularity initiatives

Majority of our products are certified **compostable** for a responsible end of life<sup>7</sup>

1. Engaging with The Higher Education Market, Quantitative Insights, B2B International, July 2021. 2. Proven by third party lab test according to OECD301B. 3. Based on the documented results achieved by three Tork Vision Cleaning customers, measured before and after the implementation of Tork Vision Cleaning. 4. Measurement of visitor satisfaction in two Tork Vision Cleaning restrooms and two traditionally maintained and equipped toilets at the ISSA/Interclean exhibition, May 2016. Note: Tork Vision Cleaning was formerly known as Tork EasyCube. 5. Based on an Internal panel test comparing with Tork Mild Foam soap. 6. 2-ply napkin in Tabletop dispenser compared to Fast Fold (Tork Dispenser: 271800 and Tork Refill: 10933). 7. Compostable in commercial composting facilities. All Tork Universal and Advanced Napkins, including custom print, are certified BPI (Biodegradable Products Institute) and all Tork hand towels are certified CMA (Composting Manufacturing Alliance). 8. The net-zero ambition means that Essity has joined the U.N. Global Compact's "Business Ambition for 1.5° C" to develop targets to reach net zero emissions by 2050 for the entire value chain, in line with SBTi criteria.

# Minimise your environmental impact Maximise your business performance

By 2025

# 100%

of our plastic packaging will be recyclable

By 2025, We will use

# 30%

recycled content in plastic packaging

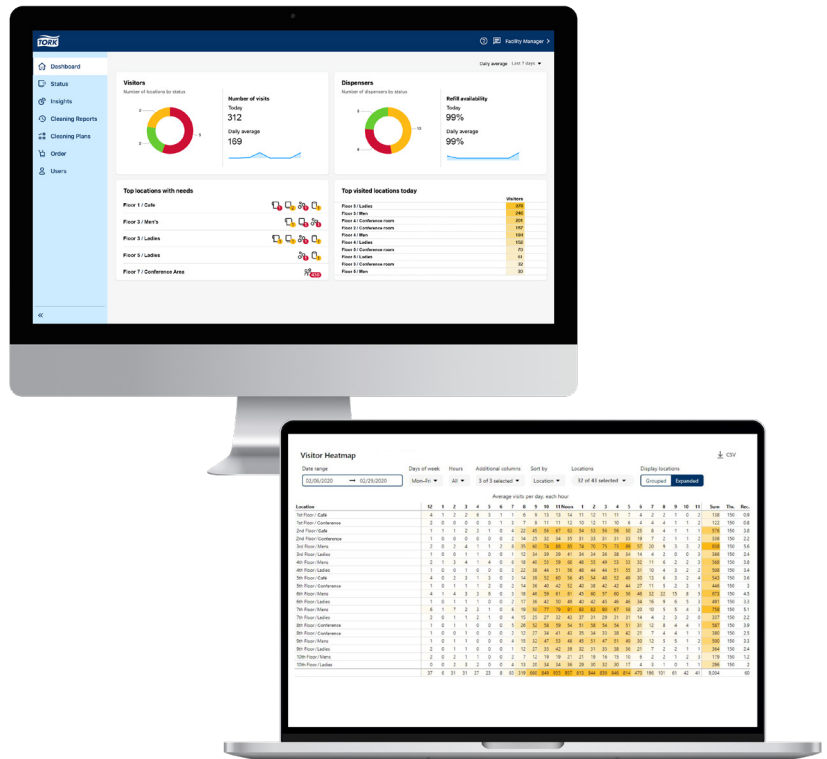

# Tork Vision Cleaning

Helps you meet your challenges

What if you could improve cleaning performance with less effort, save 20% of your cleaning hours and respond to cleaning and dispenser refill needs before you get complaints? Now you can. Tork Vision Cleaning uses real-time data to help you better support campus hygiene and transform your way of working by:

- Benefitting from real-time traffic analytics and tools like the visitor heatmap that show hot spots and trends
- Working with digital cleaning plans that provide clear instructions with always up-to-date information for cleaners
- Cleaners quickly identifying urgent tasks such as areas that need to be cleaned and dispensers that need to be refilled
- Cleaners knowing and monitoring cleaning needs and being able to act before complaints happen

## How it works

### People Counters and Connected Dispensers

Sensors measure visitor traffic and refill levels.

A gateway collects the data and communicates with the cloud.

### The Cloud

Data from the gateway is collected in the cloud powered by Microsoft Azure, which ensures security, reliability and scalability.

### Tork Vision Cleaning

Real-time information is easily accessed on your desktop, tablet or mobile phone for quick, data-based decisions.

# The Value of Tork Vision Cleaning

**Use data to understand** when and where there are needs

**Optimize your resources** and spend time on what is most important

**Use built-in reporting tools** to demonstrate a job well done and improve ways of working

**Save time and create efficiency** on tasks like dispenser checks and avoid unnecessary cleaning

**Reduce product waste** by using data to avoid early refilling

**Make sure that dispensers are stocked up to**

**99%**  
of the time<sup>1</sup>

**Reduce dispenser checks by up to**

**91%**<sup>2</sup>

**Save up to**

**20%**  
of cleaning hours<sup>3</sup>

**100%**

of existing customers say Tork Vision Cleaning helps them improve hygiene in their facility<sup>4</sup>

1. Measured across nearly 13,000 connected dispensers between June-December 2019, based on time per month that a dispenser is in an empty status against total time per month.

2. Based on customer feedback for dispenser checks over 6 months before vs after installing Tork Vision Cleaning (between June-December 2019). Measured across 16 sites connected to Tork Vision Cleaning, with each dispenser check taking approx. 20 seconds.

3. Based on the documented results achieved by three Tork Vision Cleaning customers, measured before and after the implementation of Tork Vision Cleaning.

4. Based on survey results conducted in March 2021 of 34 Tork Vision Cleaning customers in Europe and North America.

Note: Tork Vision Cleaning was formerly known as Tork EasyCube.

## Book a hygiene site survey

To make sure that your facility is up to date, we offer a hygiene site survey where we help you identify the most optimal hygiene solution for your facility and bring attention to any possible areas of improvement. Based on these findings, we give you clear recommendations for your campus. The survey can take place in your facility, by phone or video chat. See below for contact details.

### Tools and Support

In addition to proven products and services, the Tork Campus Hygiene Package also includes the tools and support you need to be ready for business and help make everyone feel safe. Visit our web page to find out more
