

# Rethinking effective sustainable cleaning

As the global leader and an expert in our industry, we are proactively working with customers, suppliers and other stakeholders to promote and support a sustainable approach to the products we sell.

**Frank van Zanten**  
Chief Executive, Bunzl plc

Cleanline Eco products are produced and bottled in the UK by manufacturers accredited with environmental standard ISO 14001.

## What is Cleanline Eco?

Cleanline Eco is a range of professional cleaning products designed to effectively tackle routine cleaning tasks in daily operations with a reduced impact on the environment. All products in the Cleanline Eco range have been developed to our Eco Star standard for sustainability. This means that each product in the range must meet some or all of the sustainability criteria set in the Eco Star standard.

The Cleanline Eco range includes three product formats: concentrated products that are diluted by the customer at point of use, ready-to-use products that can be applied directly from the bottle and biological-based products that break soiling down in a biological process. Each product format has specific sustainability attributes, and customers may choose to use one format or a mixture of all three, depending on their specific cleaning requirements.

## Introducing the Eco Star standard

Our Cleanline Eco range promotes responsible consumption and production, aims to protect life on land and water, and is effective for professional use. Developed to our Eco Star standard for sustainability, each product in the range must meet some or all of the sustainability criteria set in the Eco Star standard. The Eco Star standard has five sustainability pillars: production, formulation, transportation, in-use and end-of-life.

PRODUCTION

FORMULATION

TRANSPORTATION

IN-USE

END-OF-LIFE

## Cleanline Eco delivers professional results

Supplied with guidelines for safe handling and correct usage, Cleanline Eco professional, easy to use products facilitate a clean and hygienic environment in kitchens, washrooms and all areas of building care.

Containing more chemical and less water, Cleanline Eco concentrated products are lighter and take up less space when in transit compared to ready-to-use cleaning products, potentially reducing CO2 emissions and improving air quality.

5 litre containers and 1 litre angle-neck bottles in the Cleanline Eco range are manufactured with a minimum of 40% recycled HDPE plastic; 750ml ready-to-use trigger bottles are manufactured with a minimum of 30% recycled PET. When finished, rinsed and with labels removed, empty containers and bottles can be placed in mixed recycling to be identified and segregated at a MRF (Material Recovery Facility).

The Eco Star standard has five sustainability pillars: production, formulation, transportation, in-use and end-of-life.

Products in the range meet the relevant sustainability criteria set out in the Eco Star standard five sustainability pillars.

## The Eco Star standard

### PRODUCTION

### FORMULATION

### TRANSPORTATION

### IN-USE

### END-OF-LIFE

The Cleanline Eco range has been developed to our Eco Star standard for sustainability. This means that each product in the range meets the relevant sustainability criteria set out in the Eco Star standard's five sustainability pillars.

- ✓ Manufactured and bottled in the UK minimising the carbon footprint.
- ✓ All recycled packaging is sourced and made from the UK.
- ✓ Not tested on animals.
- ✓ Manufacturer signed up to RSPO (Round Table of Sustainable Palm Oil).
- ✓ Manufacturing process accredited with ISO 14001 environmental standard.
- ✓ Product containers made from a minimum of 30% recycled polymer (rHDPE or rPET)\*.
- ✓ Waste packaging is recyclable and minimises the use of non-recyclable plastic.

- ✓ Low environmental impact.
- ✓ Reduced use of synthetic perfumes.
- ✓ No phosphate content.
- ✓ Chlorine-free.
- ✓ Non-flammable and non-carcinogenic.
- ✓ Surfactants are readily biodegradable according to (EC) No. 648 (2004).
- ✓ Biological-based application-specific beneficial bacteria\*.

- ✓ Exclusively manufactured and bottled in the UK to reduce transportation and carbon emissions compared to imported products.
- ✓ Not classified as hazardous for transport.
- ✓ Does not require specialist UN certified transportation packaging.
- ✓ Concentrated products reduce carbon emissions by up to 98% compared to ready-to-use\* by reducing the transportation of water.
- ✓ Minimal outer transit packaging reducing waste without compromising safety.

- ✓ Available in concentrate or ready-to-use formats for optimal performance and efficient cost in use.
- ✓ pH neutral and safe for use on most sensitive surfaces\*.
- ✓ Low hazard classification in use.
- ✓ Concentrated products can be safely prepared at the point of use via a controlled dosing or dispensing system\*.
- ✓ Versatile products can be used for multiple cleaning tasks reducing the number of products required on-site\*.
- ✓ Supplied with guidelines for safe handling and recommended dilution for optimum performance.

- ✓ Individually labelled with end-of-life instructions for disposal.
- ✓ Trigger spray heads contain no metal parts and are recyclable along with the bottle.
- ✓ All containers and bottles are recyclable.
- ✓ Easily removable, single product label designed to promote recycling and reduce unnecessary packaging waste.
- ✓ Bottle containers can be easily rinsed and placed in mixed recycling to be identified and segregated at an MRF (Material Recovery Facility) and re-entered into the supply chain.

\*Criteria only applicable to specific products, see product details for more information.

## Key areas of use

These are the suggested core products to effectively tackle routine cleaning tasks in kitchens, washrooms and general building care areas.

### KITCHEN

To ensure food safety, commercial kitchens and food preparation areas must be regularly cleaned and sanitised as part of a 2-stage clean. Equipment must be washed so it is free from contamination and floors need to be clean and dry to reduce the risk of slipping.

General purpose detergent

Cleaner disinfectant

Powerful degreaser

### WASHROOM

When it comes to washrooms, a good first impression is critical as the cleanliness of this important area will reflect on the overall hygiene standards of a whole operation. Toilets must be clean and limescale-free, floors and surfaces clean and fresh and mirrors gleaming.

Toilet cleaner

Odour eliminator

Washroom cleaner disinfectant

### JANITORIAL

From heavy industry and prestigious commercial premises, to private and public sector offices of every kind, meticulous and efficient cleaning of all areas is a must.

Sticky finger marks, scuffs and ink stain remover

General floor cleaner

Floor maintainer

### BUILDING CARE

Nothing repels visitors, customers, and employees more than poor hygiene standards. General cleanliness of an area sets an impression of quality and demonstrates how much the business really values their visit.

Cleaner disinfectant

Hard surface cleaner

Windows and multi-surface cleaner

## Cleaning formats

Cleanline Eco delivers a suite of products in concentrated, ready-to-use and biological-based cleaning formats.

### CONCENTRATED

Concentrated products contain more chemical and less water. This means that concentrated products are less heavy and take up less space when in transit when compared to ready-to-use cleaning products – potentially reducing CO2 emissions and improving air quality.

Concentrated cleaning products in the Cleanline Eco range can be diluted through wall-mounted dosing dispensers or simple pelican pumps to help eliminate the risk of incorrect dosing and spillages. Used properly, dosing systems will ensure an accurate mix every time, reducing the likelihood of contact with the product, eliminating waste and ensuring optimum cleaning performance.

### READY-TO-USE

Ready-to-use cleaning products in the Cleanline Eco range are delivered in a diluted, ready to apply format, in practical and convenient trigger or squeeze bottles labelled with waste disposal information.

Ready-to-use products are particularly suitable in smaller operations where space is limited or there is no access to a water supply. Mixed at the point of manufacture, ready-to-use products contain the right strength formulation for the task they are designed for, ensuring the product performance and efficacy is consistent and reducing the risk of waste.

When rinsed and placed in mixed recycling to be identified and segregated at an MRF (Material Recovery Facility), the clear trigger spray heads and bottles are 100% recyclable.

### BIOLOGICAL-BASED

Biological-based cleaning and maintenance products in the Cleanline Eco range are designed to solve specific problems, many of which cannot be addressed by conventional chemicals and are available in both concentrate and convenient ready-to-use formats. Unlike traditional cleaning products, biological-based cleaning products contain unique application-specific beneficial bacteria to colonise surfaces. Enzymes are then produced that break down organic matters such as carbohydrates, fats and proteins.

Biological-based cleaning products are efficient, effective and safe to use. They include a variety of drainage and waste system treatments as well as powerful multi-purpose problem solvers.

By reducing the transportation of water, Cleanline Eco concentrated products reduce carbon emissions by up to 98% compared to ready-to-use products.

### QUICK REFERENCE GUIDE TO PRODUCT ICONS

## An essential range of Cleanline Eco products tackle key cleaning tasks in specific commercial environments

Cleanline Eco delivers essential and effective cleaning solutions for key tasks in commercial environments, ensuring the very highest standards of cleaning and hygiene are achieved in foodservice, washroom and general public areas.

## CONCENTRATED cleaning products

Diluting concentrated products at point of use into reusable trigger bottles reduces unnecessary single-use plastic waste.

- By reducing the transportation of water, Cleanline Eco concentrated products reduce carbon emissions by up to 98% compared to ready-to-use products.
- Due to its highly concentrated formula, one Cleanline Eco 5 litre concentrate can produce up to 333 ready-to-use trigger bottle solutions, providing great economy in use.
- Cleanline Eco concentrated products are diluted at point of use into re-usable trigger bottles reducing unnecessary single use plastic waste.
- 5 litre Cleanline Eco containers are manufactured in the UK from 40% recycled polymer. When empty, the container can be recycled and should be rinsed, label removed and placed in mixed recycling to be identified and segregated at a MRF (Material Recovery Facility).
- Cleanline Eco concentrated products do not require specialist safety transportation packaging and are not classified as hazardous for transport.
- Cleanline Eco concentrated products are highly versatile and can be diluted according to cleaning task.
- Cleanline Eco concentrated products reduce storage needs and maximise space.
- Lasting several weeks or months depending on operational requirements, Cleanline Eco concentrated products need ordering less often and can reduce the risk of being out of product.

### Orange Citrus Degreaser Concentrate **CL4045**

A concentrated heavy duty cleaner suitable for a wide variety of surfaces including floors, walls, terrazzo and worktops as well as carpets and upholstery. Lifts grease and carbon from ovens, cleans griddles, BBQs and all types of ducting and extraction filter equipment. Effective at removing ink stains, scuffs and sticky finger marks.

- ✓ Manufactured from raw ingredients sourced in the UK.
- ✓ Naturally powerful cleaner minimizes environmental impact without compromising performance.
- ✓ Highly versatile formula, one product for multiple cleaning tasks.
- ✓ Ideal for use on safety flooring helping reducing risks of slips and falls.

Orange Citrus Degreaser Cleaner Concentrate (CL4045)	037462
T5 Citrus Degreaser Refill-and-Reuse Bottle Only	019114

### Glass & Interior Cleaner Concentrate **CL4057**

A concentrated non-abrasive interior cleaner for glass, stainless steel, mirrors, laminates and ceramics and leaves a clean and smear free surface. Cuts through grease, removes finger marks and leaves a streak-free finish. Highly effective cleaner for use on high gloss laminates, polished granite and stainless steel surfaces.

- ✓ Bottle made in the UK from 40% recycled polymer.
- ✓ Manufactured from raw ingredients sourced in the UK.
- ✓ An ammonia free, non-abrasive multi-surface cleaner.
- ✓ Not classified as hazardous.
- ✓ Contains no added perfume.
- ✓ Easy to use, evaporates from surface to leave a clean, smear-free finish.

Glass & Interior Cleaner Concentrate (CL4057)	043974
T4 Glass & Interior Cleaner Refill-and-Reuse Bottle Only	019140

### Neutral Hard Surface Cleaner Concentrate **CL4044**

A concentrated multi-purpose neutral cleaner with a lemon zest fragrance, suitable for use on all washable hard surfaces including floors, walls, doors and equipment.

- ✓ Bottle made in the UK from 40% recycled polymer.
- ✓ Manufactured from raw ingredients sourced in the UK.
- ✓ Not classified as hazardous.
- ✓ Gentle neutral pH formula, safe for use on range of sensitive surfaces including plastic, marble, granite, vinyl and chrome surfaces.
- ✓ Suitable for use on 'Altro' quarry tiled and terrazzo hard floors and can be used with scrubber dryer machines.

Neutral Hard Surface Cleaner Concentrate 5L (CL4044)	033426
T6 Hard Surface Cleaner Refill-and-Reuse Bottle Only	019160

## Foodsafe Cleaner & Sanitiser Conc. **CL1070**

A concentrated dual-action cleaner sanitiser with outstanding biocidal properties and suitable for use in kitchens and on food contact surfaces. Proven effective against most common forms of bacteria and against all enveloped viruses, including Coronaviruses.

- ✓ Bottle made in the UK from 40% recycled polymer.
- ✓ Manufactured from raw ingredients sourced in the UK.
- ✓ Dual-action cleaner cuts through grease and dried-on surface soiling and disinfects the surface.
- ✓ Fragrance-free and non-tainting in use.
- ✓ Contains no phosphates or dyes.
- ✓ Independently tested and certified to BS EN 1276 with only 30 second contact time.
- ✓ Passes protocol EN 14476:2013+A2:2019 against vaccinia virus with a 1 minute contact time.

Foodsafe Cleaner & Sanitiser Concentrate 5L (CL1070)	031960
T2 Cleaner and Sanitiser Refill-and-Reuse Bottle Only	019120

Concentrated products are highly versatile and can be diluted with water according to soiling level and cleaning task required.

## Floor Maintainer **CL2017**

Highly efficient floor maintainer for spray buffing, mopping and scrubber drying of all water-resistant hard floors. Will clean and maintain gloss and polished hard floor surfaces. Removes scuff marks and repairs and re-coats surfaces leaving a protective slip-resistant finish.

- ✓ Bottle made in the UK from 40% recycled polymer.
- ✓ Manufactured from raw ingredients sourced in the UK.
- ✓ Solvent-free floor maintainer and contains no phosphates.
- ✓ Repairs and re-coats floor surfaces leaving a protective slip-resistant finish.
- ✓ pH neutral formula is safe for use on all hard floor surfaces including marble, stone and wood.

Floor Maintainer 5L (CL2017)	051429
T15 Floor Cleaner/Maintainer Refill-and-Reuse Bottle Only	019105

## Mild Washing Up Liquid **CL1067**

A concentrated general-purpose neutral detergent for manual hand dishwashing and general cleaning of hard surfaces. Cuts through grease, fat and oil on equipment, glassware, crockery, cutlery, pots, pans and ovenware.

- ✓ 5L Bottle made in the UK from 40% recycled polymer.
- ✓ Manufactured from raw ingredients sourced in the UK.
- ✓ Highly versatile pH neutral detergent.
- ✓ Contains no phosphates or added perfume.
- ✓ Safe to use on all pH sensitive hard surfaces and floors including limestone and marble.

Mild Washing Up Liquid 5L (CL1067)	030427
T1 Multi-Purpose Cleaner Refill-and-Reuse Bottle Only	019110

## Washroom Cleaner Concentrate **CL3029**

A concentrated multi-surface bathroom cleaner disinfectant, safe for use on most washroom fixtures and fittings. Removes watermarking and general soiling. Cuts through tideline scum and body fat residue and leaves a pleasant fragrance. Effective against most common forms of bacteria (99.999%).

- ✓ 5L Bottle made in the UK from 40% recycled polymer.
- ✓ Manufactured from raw ingredients sourced in the UK.
- ✓ Safe for use on most bathroom fixtures, fittings and hard surfaces.
- ✓ Contains no phosphates.
- ✓ Independently tested and certified to BS EN 1276 with only 30 seconds contact time.

Washroom Cleaner Concentrate 5L (CL3029)	037470
T9 Washroom Cleaner Refill-and-Reuse Bottle Only	019180

## Lemon Floor Gel **CL2018**

A concentrated multi-surface gel cleaner with a refreshing citrus fragrance. Formulated to remove the heaviest deposits of oil, grease and grime from hard surfaces. Dissolves scuff and heel marks from hard floors whilst bringing back to a shine.

- ✓ Bottle made in the UK from 40% recycled polymer.
- ✓ Manufactured from raw ingredients sourced in the UK.
- ✓ Non-abrasive, will gently clean without stripping polished floor surfaces.
- ✓ Not classified as hazardous.
- ✓ Low foaming, pine-oil free formula.
- ✓ pH neutral formula safe for use on most floor types including linoleum, vinyl, woodblock and terrazzo.

Lemon Floor Gel 5L (CL2018)	051437
-----------------------------	--------

## READY-TO-USE cleaning products

Made from 30% recycled polymer and when rinsed with the one label removed trigger spray heads and bottles are easily recyclable.

- Delivered pre-diluted in convenient trigger sprays or squeeze bottles, Cleanline Eco ready-to-use products are ideal in smaller operations where space is limited or there is no access to water to prepare a solution.
- Cleanline Eco ready-to-use products are safer and easier to use requiring no preparation or dilution, reducing the risk of spillages and accidents.
- Cleanline Eco ready-to-use products contain an exact formulated strength optimal for the task for which they have been designed, ensuring performance and efficacy is consistent and reducing the risk of waste.
- Cleanline Eco ready-to-use products have been developed to have a low hazard classification and do not have any hazard pictograms compared to concentrated products.
- Single printed label (front only) reduces unnecessary label packaging waste and helps promote recycling.
- Labelled with instructions for end-of-life disposal, product labels are designed to be easily removed before recycling.
- Trigger spray heads contain no metal parts. When the bottle is rinsed and placed in mixed recycling to be identified and segregated at a MRF (Material Recovery Facility) the trigger head and bottles are 100% recyclable.
- Clear 750ml PET bottles are manufactured in the UK from at least 30% recycled plastic.

### Washroom Cleaner **CL3030**

A multi-surface daily bathroom cleaner disinfectant, safe for use on most washroom fixtures and fittings. Removes watermarking and general soiling and cuts through tideline scum and body fat residue leaving a pleasant apple fragrance. Effective against most common forms of bacteria (99.999%).

- ✓ Bottle made in the UK from 30% recycled polymer.
- ✓ 100% recyclable bottle and trigger spray head.
- ✓ Manufactured from raw ingredients sourced in the UK.
- ✓ Safe for use on most bathroom fixtures and fittings
- ✓ Contains no phosphates.
- ✓ Not classified as hazardous.
- ✓ Independently tested and certified to BS EN 1276 with only 30 seconds contact time.

Washroom Cleaner 5L (CL3028)	037464
Washroom Cleaner 750ml (CL3030)	037463

Unique restrictive flow cap nozzle helps prevent over application and wastage.

### Daily Toilet Cleaner **CL3031**

A mild daily maintenance cleaner for toilets and urinals. Excellent in soft and medium water conditions and leaves a fresh citrus fragrance. Viscous formula uniformly coats and clings to surfaces for more through clean and reduces limescale build-up where germs and bacteria breed.

- ✓ Bottle made in the UK from 40% recycled polymer.
- ✓ Contains no phosphates.
- ✓ Not classified as hazardous.
- ✓ Angled directional neck makes application easy both in the pan and under the rim.
- ✓ Uses a restrictive flow cap nozzle helping prevent over application and wastage.
- ✓ Safe to use on a variety of hard surfaces including porcelain, stainless steel, chrome and ceramic tiles.

Daily Toilet Cleaner 1L (CL3031)	037455
----------------------------------	--------

### Biological Washroom Cleaner & Odour Eliminator **CL3033**

A unique biological-based washroom cleaner and odour eliminator using application-specific beneficial bacteria to offer an innovative way of cleaning a wide variety of hard surfaces such as toilets, urinals, sinks, bathroom fixtures and floors.

- ✓ Bottle made in the UK from 30% recycled polymer.
- ✓ 100% recyclable bottle and trigger spray head.
- ✓ Contains micro-organisms to rapidly clean, deodorise and maintain an odour-free washroom.
- ✓ Not classified as hazardous.
- ✓ Safe for use on all washroom hard surfaces including floors, walls, basins, tiles and grouting.
- ✓ Suitable for use with waterless urinals and compatible with enzyme urinal blocks and screens.

Biological Washroom Cleaner & Odour Eliminator 750ML (CL3033)	033434
---	--------

### Mild Washing Up Liquid **CL1068**

A general-purpose neutral detergent for manual hand dishwashing and general cleaning of hard surfaces. Cuts through grease, fat and oil on equipment, glassware, crockery, cutlery, pots, pans and ovenware.

- ✓ Manufactured from raw ingredients sourced in the UK.
- ✓ Highly versatile pH neutral detergent.
- ✓ Contains no phosphates.
- ✓ Contains no added perfume.
- ✓ Safe to use on all pH sensitive hard surfaces and floors including limestone and marble.

Mild Washing Up Liquid 1L (CL1068) 030426

Ready-to-use products are formulated for the task they are designed for, ensuring product performance and efficacy is consistent and reducing risk of waste.

### Foodsafe Cleaner & Sanitiser **CL1069**

A dual-action cleaner disinfectant with outstanding biocidal properties suitable for use in kitchens and on food contact surfaces. Effective against most common forms of bacteria (99.999%).

- ✓ Bottle made in the UK from 30% recycled polymer.
- ✓ 100% recyclable bottle and trigger spray head.
- ✓ Manufactured from raw ingredients sourced in the UK.
- ✓ Dual-action cleaner disinfectant cuts through grease and dried-on surface soiling
- ✓ Fragrance-free and non-tainting formula.
- ✓ Contains no phosphates or dyes.
- ✓ Independently tested and certified to BS EN 1276 with only 30 seconds contact time.

Foodsafe Cleaner & Sanitiser RTU 750ML (CL1069) 036016

### Neutral Hard Surface Cleaner **CL4043**

A multi-purpose neutral interior cleaner with a fresh lemon zest fragrance. Effective at removing stubborn dirt and heavy grease from walls, tables, counters, doors and other hard washable surfaces.

- ✓ Bottle made in the UK from 30% recycled polymer.
- ✓ 100% recyclable bottle and trigger spray head.
- ✓ Manufactured from raw ingredients sourced in the UK.
- ✓ No hazard classification under CLP regulations.
- ✓ General-purpose cleaner brings back the shine to glazed ceramic tiles, stainless steel and glass surfaces.
- ✓ pH neutral formula safe for use on range of sensitive surfaces including plastic, marble, granite, vinyl and chrome surfaces.

Neutral Hard Surface Cleaner 750ML (CL4043) 033425

### Orange Citrus Cleaner **CL4047**

A powerful multi-purpose cleaner removes grease, oils, sticky finger marks, scuffs and ink stains from hard surfaces. Powerful cleaner lifts grease and carbon from ovens, cleans griddles, BBQ's and all types of ducting and extraction filter equipment.

- ✓ Bottle made in the UK from 30% recycled polymer.
- ✓ 100% recyclable bottle and trigger spray head.
- ✓ Manufactured from raw ingredients sourced in the UK.
- ✓ Highly versatile cleaner removes grease, oils and carbon deposits from ovens, griddles, barbeques and other hard surfaces.
- ✓ Powerful citrus formula is effective at removing ink stains, scuffs and sticky finger marks.

Orange Citrus Cleaner 750ML (CL4047) 033351

### Glass & Stainless Steel Cleaner **CL4048**

A non-abrasive interior cleaner for glass, stainless steel, mirrors, laminates and ceramics leaving a clean and smear free surface. Cuts through grease, removes finger marks and leaves a streak-free finish. Highly effective and safe for use on high gloss laminates, polished granite and stainless steel surfaces.

- ✓ Bottle made in the UK from 30% recycled polymer.
- ✓ 100% recyclable bottle and trigger spray head.
- ✓ Manufactured from raw ingredients sourced in the UK.
- ✓ An ammonia free, non-abrasive multi-surface cleaner.
- ✓ Easy spray-on, wipe-off action, evaporates from surface to leave a clean, smear-free, shiny surface.
- ✓ Contains no added perfume.

Glass and Stainless Steel Cleaner 750ML (CL4048) 043403

## BIOLOGICAL-BASED cleaning products

Biological-based professional products work with biology, not against it, and is an alternative to traditional cleaning chemicals.

- To aid responsible cleaning supply, Cleanline Eco biological-based cleaning products are manufactured from raw ingredients sourced in the UK, which reduces transport emissions resulting in a smaller carbon footprint than an equivalent imported product.
- Biological-based products are non-toxic and the continued use provides a safe and efficient choice for cleaning in professional environments.
- Biological-based cleaning products contain natural beneficial microbes, which reach deep into surfaces and offer long-lasting cleaning results.
- The application-specific beneficial bacteria have been selected to release enzymes that take an effective long-term approach to odour control and degradation of organic compounds such as grease, fats, proteins, starch and sugars.
- Unlike traditional chemical cleaners, biological-based products don't 'strip' surfaces of bacteria. Instead, the Cleanline Eco range (which includes surface cleaners, stain removers and odour neutralisers) inoculates surfaces with beneficial bacteria that continue to work long after the product has been applied.
- Cleanline Eco biological-based cleaning products are full of beneficial bacteria which penetrate deep into surfaces, naturally degrading dirt and odours and help to prevent the invasion of harmful bacteria.

### Washroom Cleaner & Odour Eliminator **CL3032**

A unique biological-based washroom cleaner and odour eliminator using application-specific beneficial bacteria offering an innovative way of cleaning a wide variety of hard surfaces such as toilet bowls, urinals, sinks, bathroom fixtures and floors.

- ✓ Contains micro-organisms to rapidly clean & degrade odours at source to maintain odour-free washrooms.
- ✓ Not classified as hazardous.
- ✓ Safe for use on all washroom hard surfaces.
- ✓ Safe to use with waterless urinals and compatible with enzyme urinal blocks and screens.

Biological Washroom Cleaner & Odour Eliminator 750ML (CL3033)	033434
Biological Washroom Cleaner & Odour Eliminator 5L (CL3032)	033435

### Stain & Odour Eliminator **CL4051** **CL4049**

A highly effective stain and odour neutraliser using unique application-specific beneficial bacteria to offer innovative and effective long-term approach to odour control and degradation of organic material.

- ✓ Safe and effective for use on carpets, upholstery, fabrics and flooring.
- ✓ Contains highly active, micro-organisms that penetrate deep into the surface and break down dirt and degrade odours at the source.
- ✓ Remain on the surface and continue to work long after the product is applied helping to prevent the reoccurrence of odours and stains.

Stain & Odour Eliminator 1L (CL4051)	044127
Stain & Odour Eliminator 5L (CL4049)	037445
T13 Stain & Odour Eliminator Refill-and-Reuse Bottle Only	019103

### Grease Trap Maintainer **CL1072** **CL1073** **CL1074**

A powerful biological-based grease trap and drain maintainer uses beneficial bacterial strains that are specially selected to degrade Fats, Oils and Grease (FOG's) keeping commercial kitchen drains clear.

- ✓ Specifically targets and degrades all types of FOG and creates a beneficial biofilm for ongoing maintenance.
- ✓ Works effectively in lower pH ranges found in grease traps and grease interceptors.
- ✓ Readily biodegradable and low toxicity formula chosen to minimise environmental impact.
- ✓ Works with the bacteria not against it to deliver maximum product performance.

Grease Trap Maintainer 5L (CL1072)	036017
Grease Trap Maintainer 10L (CL1073)	037441
Grease Trap Maintainer 20L (CL1074)	037444

### Biological Urinal Blocks **CL3036**

Water soluble cleaning and deodorising biological blocks eradicate blockages in pipes and drains by breaking down uric acid and preventing scale build-ups.

- ✓ Helps maintain clean, odour-free urinal-traps and pipes and reduces the need for regular urinal flushing.
- ✓ Does not contain pDCB.
- ✓ Stays active in pipes preventing build-ups of solids.

Biological Urinal Blocks 1.1KG Tub (CL3036)	036015
---	--------

## multi-purpose sanitising wipe

Cleanline Eco Ultra-One Multi-Purpose Sanitising Wipe is made from responsibly sourced material and uses a unique blend of natural organic ingredients to effectively clean and disinfect surfaces.

The Ultra-One wipe provides a sustainable alternative to traditional cleaning wipes, and significantly, the wipe's reusable tub can be refilled from a refill pouch to reduce plastic packaging waste by up to 85% on each occasion.

Made from responsibly sourced and certified 100% viscose material which is derived from tree pulp, the Ultra-One wipe solution has no hazard classification and the label contains no hazard warnings. The disinfectant formula is non-corrosive on surfaces and contains a unique blend of natural organic ingredients including lactic acid, tartaric acid, peppermint oil and lavender oil.

In addition to its sustainability credentials, the highly versatile Ultra-One wipe boasts superb efficacy in a wide range of applications and areas in professional hospitality, workplace, healthcare and building care environments. Designed to swiftly clean and disinfect hard surfaces, tackling heavy grease and grime with ease, the Ultra-One wipe is proven to reduce 99.999% of bacteria in just 60 seconds. The solution is also independently tested and certified to EN 1276, EN 13697, EN 1650 and EN 14476 and is tested as non-corrosive on surfaces.

The tub canister is designed to be refilled and reused from the refill pouch, reducing plastic packaging waste by up to 85%.

The cleaning solution has no hazard classification and the label contains no hazard warnings.

### Ultra-One Multi-Purpose Sanitising Wipes

CL4072 CL4073 CL4074

A multi-purpose wipe that combines responsibly sourced viscose substrate with a unique plant-based formula to effectively clean and disinfect hard surfaces.

- ✓ Highly versatile multi-surface wipes removing heavy grease and grime. Suitable for cleaning all washable hard surfaces and is corrosion tested as non-corrosive.
- ✓ A unique formula containing a blend of natural organic ingredients including lactic acid, tartaric acid, peppermint oil and lavender oil.
- ✓ Proven effective against bacteria and viruses. Independently tested and certified to EN 1276, EN 13697, EN 1650 and EN 14476.
- ✓ Responsibly sourced and certified 100% viscose wipe material. Viscose is derived from plant-based ingredients (Tree Pulp).
- ✓ The tub canister is designed to be reused and refilled. The flexible refill pouch contains 85% less plastic material than a typical 2L HDPE tub canister significantly reducing plastic waste packaging.
- ✓ Waste packaging is 100% recyclable including the flexible refill pouch.
- ✓ Dermatological tested and rated as "excellent".
- ✓ The solution has no hazard classification and contains no hazard warnings on the product label.
- ✓ The flexible and resealable pouch refill is preprinted requiring no additional labelling and uses 43% less storage space than a typical 2L HDPE tub canister.

### PRODUCT HIGHLIGHTS:

Plant-based solution with no hazard classification

Durable, extra thick viscose wet wipe will clean for longer

Proven highly effective against bacteria and viruses

Powerful cleaning lifts dirt from any surface - even sticky ones!

Super absorbent wipe means more cleaning solution on the surface

The resealable refill tub keeps wet wipes fresh and won't dry out

## SOLUBLE PAPER SACHETS cleaning products

Soluble paper sachets  
reduces storage space and  
packaging by up to 95%.

Cleanline Eco brings simplicity and safety to its range of water soluble paper sachets; a quick and easy one dose solution, reducing storage space and packaging by up to 95%.

By removing the addition of water at the point of packaging, Cleanline Eco Soluble Sachets eliminates the need for transporting gallons of water across the country to reach the consumer. This significantly reduces the carbon footprint of the range and consumers can enjoy the benefits of having a truly sustainable cleaning operation with products that are also effective, simple, and safe to use.

One pouch of 20 sachets is equivalent to 20 ready-to-use spray bottles of product,

meaning single-use plastic can now be a thing of the past and can instead be replaced by Cleanline Refill-and-Reuse bottles.

Soluble Sachets are ideal for any customer where storage space is a challenge. They are simple and easy to use, just add one pre-measured paper sachet dose to a bottle or bucket of water and the product is ready to use. This reduces the requirement for extensive staff training and cost control is easily managed.

Simple and easy  
to prepare, just  
add water...

Add small  
amount of  
warm water

Add 1 sachet  
and gently  
shake bottle

Fill with  
water and  
screw on  
trigger head

Shake well  
and it is  
ready-to-use!

### Multi-Purpose Cleaner **CL4075** **CL4076** **CL4077**

A lightly fragranced general-purpose detergent suitable for cleaning a variety of modern hard surfaces. Available for spray bottle use as well as bucket surface cleaning and bucket floor cleaning.

- ✓ Fast-dissolving paper sachets made from FSC certified fibre.
- ✓ Suitable for cleaning hard surfaces including tables, worktops, cupboard fronts, equipment surfaces, and walls.
- ✓ Emulsifies oil, grease, and dirt, leaving and smear-free finish.
- ✓ Leaves a pleasant, refreshing fragrance.

## SOLUBLE SHEETS laundry leaves

Laundry Leaves are up to 90% smaller than traditional formats and contains no single-use plastic packaging.

Cleanline Eco Laundry Leaves are a sustainable alternative to traditional laundry detergent, delivering a fantastic clean and up to 90% smaller and lighter than powder and liquid.

Discover the next generation of laundry detergent, the ultra-concentrated sheets that revolutionise the way you wash. A single water-soluble sheet guarantees a thorough clean and leaves your laundry brilliantly clean and fresh.

Fabric washing has never been this simple: just drop one sheet into the washing drum and enjoy a remarkably convenient approach to cleaning your laundry, even on quick cycles. The exceptionally lightweight and compact design makes them a breeze to carry, use and store.

The unique and innovative vegan and cruelty-free formulation works at temperatures as low as 20°C, saving energy onsite and reducing costs. Smaller or single items can be handwashed, eliminating the need to use the washing machine altogether.

Not only do Laundry Leaves use significantly less carbon emissions during production compared to laundry detergent in traditional formats, energy associated with transport is also reduced by around 85% due to being 16 times smaller and lighter.

Laundry Leaves offer uncompromising effectiveness, ensuring a brilliant clean every time without harming the planet.

Ultra-concentrated and pressed into an innovative sheet for ultimate space saving and plastic reduction.

Simple one sheet = one wash solution.

Laundry Leaves Ultra-Concentrated Scented Laundry Detergent Sheets (CL5039) Pack of 75 032498

### Laundry Leaves CL5039

A sustainable lightweight non-bio laundry detergent sheet, delivering a fantastic clean with no mess, all housed in recyclable and compostable cardboard packaging.

- ✓ A powerful laundry clean, suitable for both whites and colours.
- ✓ Proven effective in hard and soft water.
- ✓ Formulation has no health or environmental hazards when used as stated.
- ✓ No dosing equipment required and minimal storage is needed.
- ✓ Kind on fabrics - do not cause fabric shredding.
- ✓ Biodegradable and compostable packaging; no single-use plastic.
- ✓ Lightweight and easy to handle, reducing strain on the user.
- ✓ Control costs and eliminate overdosing with an easy one-dose sheet.
- ✓ Product has a low carbon footprint as water is added at the point of cleaning.
- ✓ Up to 90% reduced weight and packaging compared to traditional formats.
- ✓ Formulations are vegan and cruelty-free; no animal testing or animal-derived ingredients.
- ✓ Suitable for hand-washing.
- ✓ Dissolve instantly in water, leaving no plastic residue - just clean, fresh laundry.

### PRODUCT HIGHLIGHTS:

No single-use plastic packaging

No pre-measuring required

Instantly dissolves in water

Cleans at low temperatures

Vegan-friendly formula

Lightweight and easy to handle

The 2021 waste2zero awards Winner of the Best Product, Technology and Innovation Award were presented to Bunzl UK & Ireland for its Cleanline Eco range of professional, sustainable cleaning products.

As climate statements come thick and fast from COP26, it is clear that waste remains endemic and one of the biggest global challenges today. The waste2zero awards recognise excellence in Waste Management and Prevention in the out of home sector and specifically give market-leaders a platform to showcase best practice and initiatives in this vital area.

In 2021, Bunzl UK & Ireland launched Cleanline Eco, a range of professional cleaning products developed to a new Eco Star standard, with the primary objective to promote responsible consumption and production, aim to protect life on land and water, and be effective for professional use. Designed to effectively tackle routine and periodic cleaning tasks in a catering and hospitality operation with a reduced impact on the environment, all products in the Cleanline Eco range are developed to a new Eco Star standard for sustainability. The Eco Star standard's five sustainability pillars are: production, formulation, transportation, in-use and end of life.

The Eco Star standard was designed to set out clear and measurable sustainability attributes for cleaning products from point of production to their end of life. In the wake

of Covid-19, the new Cleanline Eco range combines efficacy with a reduced impact on the environment, helping operators protect employees and customers and providing reassurance that they are returning to a safe and sustainable hospitality industry.

Bottle containers and angle-neck bottles in the Cleanline Eco range are manufactured with a minimum of 40% recycled plastic (HDPE), 750ml ready-to-use trigger spray bottles are manufactured with a minimum of 30% recycled plastic (PET). When finished, rinsed and with labels removed, empty containers, bottles and trigger spray heads can be placed in mixed recycling to be identified and segregated at a MRF (Material Recovery Facility).

At the waste2zero awards, an elite panel of judges, experts in waste, packaging and sustainability, reviewed innovations and initiatives from organisations large and small in areas such as resource management, closed loop, recycling and food redistribution. Clear leadership was evident from organisations in the sector who are demonstrating operational strategies that reduce waste impacts to the environment up and down supply chains.

Bunzl is proud to once again support an event that showcases the excellent work achieved by market-leaders to reduce waste, promote recycling and encourage environmentally responsible end-of-life solutions for disposable packaging products.

**Justin Turquet**  
Head of Sustainability, Bunzl Catering Supplies

Cleanline Eco promotes responsible consumption and production, aims to protect life on land and water, and is effective for professional use.
