

# Tork Soft Jumbo Toilet Roll

Colour: White

## benefit

- High capacity span: less maintenance
- Economical roll length
- Soft tissue with high brightness
- Embossed for extra bulk
- Printed with blue leaf design that will enhance your washroom.

## product properties

article	system	Roll Length	Roll Diameter	Number of Sheets	Ply	Print	Colour
110275	T1 - Jumbo toilet system, T1 - Jumbo toilet system	360 m	26.5 cm	1800	2	no	White

## description

The Tork jumbo system (T1) is suitable for high capacity span locations.

## environmental

### Content

Virgin pulp

Recycled fibres

Chemicals

### Material

Virgin fibres and recovered paper

In the tissue process both virgin fibres and recovered paper are being used. In the process it is a matter of finding an efficient solution where both virgin fibres and recovered paper play a role. Different fibres demand different processes and this determines the end product properties, and makes the fibre type (recovered or virgin) less important.

The environmental benefits and economic feasibility of recovered paper as a raw material source depend on its availability, transport distance and the quality of the collected material.

Bleaching of fibres

Bleaching is a cleaning process of the fibres and the aim is to achieve a bright pulp, but also to get a certain purity of the fibre in order to achieve the demands for hygiene products and in some cases to meet the requirements for food safety.

There are different methods used today for bleaching ECF (elementary chlorine free) where chlorine dioxide is used, and TCF (totally chlorine free) where ozone, oxygen and hydrogen peroxide is used.

Chemicals

The chemicals used in the process as well as the functional chemicals are assessed from an environmental, occupational health and safety and product safety point of view .

The used functional chemicals are:

Dry strength agent

If coloured = Dye

Fixing agents

If white Fluorescent whitening agent

If needed Glue

Softeners

The process chemicals are:

# Tork Soft Jumbo Toilet Roll

Colour: White

---

Antipitch

Protection agent

Yankee coating

Defoamer

Dispersing agents and surfactants

pH and charge control

Retention aids

Broke treatment chemicals

Drainage aid

Packaging

Fulfilment of Packaging and Packaging Waste Directive (94/62/EC): Yes

Environmental label = Ecolabel

This product does not have any ecolabel.

Date of issue 2013-09-25

Revision date

SCA Hygiene Products AB, Bäckstensgatan, 405 03 Göteborg

## **Production**

This product is produced in Skelmersdale, GB, certified according to ISO 9001, ISO 14001.

## **Destruction**

This product is suitable to be taken care of in the normal sewage system of the community.
