

Greener Invoicing

This year we are trying new initiatives to be more environmentally aware and providing paperless billing is another step in the right direction.

As you are already placing your orders online we would like to offer you the opportunity to receive your invoices in PDF format by email.

There are fantastic benefits to opting to receive your invoices by email, our posted invoices go out once per week, but by email:

- There will no longer be any delay in receiving your invoices.
- You will receive your invoices daily
- Nothing can get lost in the post
- You will have the ability to save them to your own system and email them onto other departments if necessary.

It is really simple to set up, just complete a few details below and send this page back to us by email – no paper required – and we will do the rest.
