SAFE HANDLING:
Always wear Personal Protective Equipment (PPE) when handling, dispensing and using chemicals.

Refer to the Safety Data Sheet (SDS) for detailed information and immediate first aid measures including medical emergency helpline number.

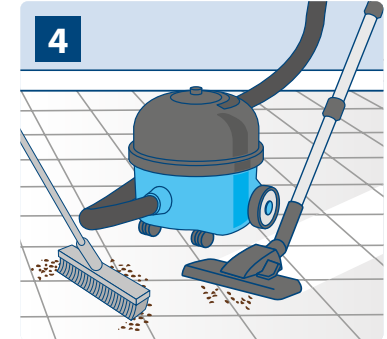

1 Use appropriate PPE as indicated in the safety data sheet. Place appropriate safety signage.

2 Highly versatile, cleans floors, walls, cooker tops and extraction canopies.

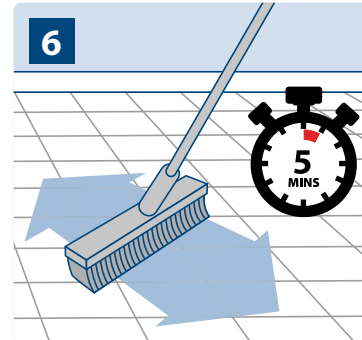

3 **Bucket solution:** Add 2 doses per 5 litres of water. For heavily soiled floors increase dosage, add 4 doses per 5 litres.

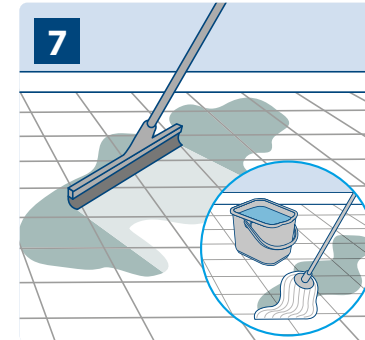

4 Before application, floors should be swept and free from loose debris.

5 Apply the solution with a clean mop, walking backwards mopping in an "S" shape pattern.

6 Agitate with a scrub brush in all directions and leave for 5 minutes for the chemical to react but do not allow the solution to dry.

7 Use a wet pick up mop and squeegee to remove slurry from floor. Dispose of the soiled solution responsibly. Rinse the floor with clean water.

8 Clean and rinse out bucket and mop. Wipe down machinery and cable. Leave to air dry. Remove safety signage when floor is dry.

IMPORTANT: Always ensure caps on chemical containers are secure.
