

Non Ammoniated Floor Polish Remover

Product Discription

A non ammoniated floor polish remover for the efficient removal of polish from vinyl, rubber, sealed wood, quarry tile and most common hard floor surfaces.

- For use on a wide variety of hard surfaces and floors
- Highly concentrated and effective alkaline stripper/degreaser

Directions

- Liberally apply diluted Easy Strip Floor Polish Remover to floor surface
- Allow 7 -8 minutes contact time, ensuring that the floor remains wet
- For best results scrub the floor area using a single disc rotary machine fitted with black nylon stripping pad or nylon scrubbing brush. Where machinery is not available the floor should be scrubbed manually using a deck scrubber or edging tool
- For best results remove the slurry using a wet pick-up machine. Where machinery is not available the slurry should be removed using a mopping system
- Rinse thoroughly with a clean mop and fresh water.
- For best results remove the excess rinse water using a wet pick-up machine. Where machinery is not available the rinse water should be removed using a mopping system.
- Allow the floor area to dry thoroughly before applying new coats of polish

Product Information and Safety Data sheets available on request
